(The Hon. Joseph M'eruaki, M.P.)

THAT, aware that Article 43 of the Constitution provides that every person has the right to clean and safe water in adequate quantities; further aware that water harvesting is an important practice for water management; cognizant of the fact that earth-dams and water-pans would play a key role in water harvesting especially in arid and semi-arid areas; noting that a large quantity of run-off water goes to waste in most parts of the country;

...../A*. (cont'd)

further noting that this run-off water if properly harvested and managed would be useful for domestic, livestock and irrigation purposes; appreciating that increased infrastructural development especially in roads has led to the mobilization of machineries and human resources in most areas; further appreciating that these civil engineering machineries and personnel can be useful in the construction of earth-dams and water-pans; this House **resolves** that the Government through the Ministry of Transport, Infrastructure, Housing and Urban Development ensures that all road designs and constructions incorporate run-off water harvesting and management mechanisms.
