KEY UNIVERSITY INFORMATION AND MANAGEMENT

(a) Background Information

Kenyatta University is an international Public University based in Nairobi, Kenya. Its main campus is located 23 kilometers from the City Centre along Nairobi-Thika Super Highway. It is set on 1,105 acres of land providing a quiet and serene environment conducive to learning, research and intellectual growth.

Kenyatta University began its long journey to the attainment of University status in 1965 when the British Government handed over the Templer Barracks to the Government of Kenya. These were converted into an institution of higher learning known as Kenyatta College. Following the Act of Parliament of 1970, Kenyatta College became a constituent College of the University of Nairobi. Consequently, the name changed from Kenyatta College to Kenyatta University College. Kenyatta University College admitted its first batch of 200 students in 1972 to pursue studies leading to the award of the Bachelor of Education of the University of Nairobi.

In July 1978, the Faculty of Education of the University of Nairobi was transferred to Kenyatta University College. As a result, the College became the only institution training teachers at both undergraduate and postgraduate levels at that time. The University status was achieved on August 23, 1985, when the Kenyatta University Act received presidential assent making the institution a full-fledged University. The Act became operational on September 1, 1985 and the University was inaugurated on December 17, 1985.

In December 2012, the Government of Kenya brought the governance and Management of all Universities under one umbrella through the enactment of the Universities Act 2012, which repealed the individual public University's Acts including the Kenyatta University Act 1985. Under the new Universities Act 2012, Kenyatta University was granted Charter on 1st march 2013.

Kenyatta University has over the years established new schools and constituent Colleges. In this pursuit, Jomo Kenyatta University College of Agriculture and Technology became a constituent College of Kenyatta University in 1988 and in 1998 a full-fledged University, Jomo Kenyatta University of Agriculture and Technology (JKUAT). In 2007, Pwani University College in Kilifi was established as a Constituent College. It became Pwani University, a full-fledged University in January 2013. Machakos University College established in 2009 became a full-fledged University, Machakos University in 2016.

CHAIRMAN'S STATEMENT

It is my Privilege to present the Annual Report and Financial Statement for the year ended 30 June 2019 for this great University.

During the year under review the University remained focused on its mission to provide quality education and training, promote scholarship, service, innovation and creativity and inculcate moral values for sustainable individual and societal development.

I would wish to highlight that in the year 2018/2019, the University reported a deficit of Kshs 677,803,757 which was an improved performance compared to the year 2017/2018 when the University reported a deficit of Kshs 2,109,408,511. The poor performance can be attributed to the decrease in student numbers as a result of non attainment of the University minimum entry grade and reduction in Government Grants. It is my anticipation that in the year 2019/2020 the University through cost cutting and revenue enhanced measures implemented will report improved performance.

Kenyatta University celebrated her 44th Graduation Ceremony on 3rd August 2018, with over 5,000 graduands being conferred with various degrees, diplomas and certificates. The Chief Administrative Secretary and Principal Secretary, State Department for University Education, Prof. Collette A. Suda, was the chief guest.

In her 45th graduation ceremony on 14th December 2018, the University witnessed over 6,000 graduands conferred with various degrees, diplomas and certificates. During this occasion, the Central Bank of Kenya Governor Dr. Patrick Njoroge was honored with the award of the degree of Doctor of Humane Letters (Honoris Causa) from Kenyatta University. This was in recognition of his contribution to monetary stability in Kenya under difficult circumstances, his exemplary humility and integrity and his magnanimity in serving humanity, especially the downtrodden. Dr. Njoroge has proved to be a game changer in Kenya's Financial Industry. In 2017 when the shilling started to depreciate, he initiated reforms that have strengthened and stabilized the currency. Since taking office, Dr. Njoroge has taken a leading role in pushing banks to lower borrowing costs and also stepped up scrutiny of lenders to protect depositors' interests

On infrastructure;

The University continued with the construction of teaching facilities projects such as the School of Business, Applied Human Sciences Building, and the children hospital among others.

The Government of the People's Republic of China on Thursday, 24th January 2019, officially handed over a modern International Language and Culture Centre worth over KSh1.09 billion to Kenyatta University. The building hosts a Confucius Institute, an Africa Education Institute, an International Languages Centre and a culture centre, all geared to the promotion of local, African and foreign languages, arts and cultures. The ground breaking ceremony for the International Language and Culture Centre took place on 15th March 2016, and was graced by the then Ambassador of the People's Republic of China to Kenya, Liu Xianfa. The centre was financed and constructed by the People's Republic of China. Successful delivery of

CHAIRMAN'S STATEMENT

the facility is touted as a reflection of the current situation and long history of cultural and people-to-people exchanges between China and Kenya. The International Language and Culture Centre marked another milestone in China-Kenya friendship and showcase the rapid development of China-Kenya cultural and people-to-people exchanges and comprehensive cooperation partnership. The handing over ceremony was attended by top officials from the National Treasury and Ministry of Education among others.

Plans to establish Mama Ngina University College, which will be a constituent college of Kenyatta University, are under-way. This follows the groundbreaking ceremony which was held on Saturday 13th April 2019 at Mutomo in Gatundu South. The association between KU and Mama Ngina University College started back in 2016, when the Ministry of Education appointed Kenyatta University to mentor its establishment and growth. Since then, the University has worked closely with other stakeholders to ensure that the College fulfils the necessary legal and statutory requirements to eventually become operational.

Kenyatta University Hospital was handed over to the appointed Board on 24th May 2019. The event paves way for the facility's soft opening scheduled to take place mid-August this year after the equipment has been tested and commissioned as well as staff employed. The hospital was built through a loan financed by the China Exim Bank. This facility has in place world class facilities matching those found anywhere in the developed world. Indeed one of the biggest claims of foreign currency has been medical tourism by Kenyans seeking treatment abroad. It has been a very big drain on our economy as Kenyans have to pay for treatment using their own hard earned cash but this is expected to change all that. I note that there are legal and administrative issues that still need to be clarified with regard to the operation of the hospital which would require further engagement between the University Council and the board.

Kenyatta University is amongst the leading Universities in provision of quality training and also aligning the outcomes to Kenya's Big Four Agenda. The University's infrastructural capacity, achieved over the recent years has served much needed capacity for quality training and research as well as service. In particular, the newly completed Kenyatta University Teaching, Research and Referral Hospital set to be opened soon which would address significant health gaps in Kenya and the region.

We will continue to work closely with the Government and other Collaborating partners to provide highly competitive and versatile graduates which the Country and Region need for sustainable development.

I take this opportunity to thank the Government of Kenya and all collaborating partners, both internal and external for their continued support.

Lastly I want to thank my fellow members of council, members of staff, and students for their tireless effort, team work and for achievements made in the year ended 30th June 2019.

Prof. Shem E. Migot-Adholla Ph.D.
Chairman, Kenyatta University Council

VICE-CHANCELLOR'S REPORT

I am delighted to present the University's results for the year ended 30 June 2019.

During the year under review the University remained on course in implementation of 2016-2026 Strategic Vision Plan; guided by the theme "Enhancing Higher Education, Transforming Lives". The theme is grounded on the principles of inclusiveness and participation, good governance, equity, environmental consciousness and respect for diversity.

During the year, the University put in place the necessary Internal Controls on resources to ensure that we meet the targets of revenue collection and cost control.

The University held its 44th graduation ceremony on 3rd August 2018 and its 45th Graduation Ceremony on 14th December 2018 at the main campus. The events saw 5,039 and 6,466 graduands respectively conferred with various certificates, Diplomas and Degrees in respective disciplines. The theme of the 44th graduation celebrations, 'Education for the Attainment of Kenya's Big Four Agenda', was selected to underscore Kenyatta University's commitment to pursuing projects and programmes that complement government efforts. Among these initiatives are research on food security, operationalization of the 600-bed University Hospital comprising of a Molecular Imaging Centre with state-of-the-art facilities for cancer management and research, establishment of a Herbal medicine research centre courtesy of the National Research Fund, construction of a pilot solar power plant, and various research projects in prevention of non-communicable diseases and protection of Kenya's water towers.

Kenyatta University registered over 9,000 new students in the year 2018/2019 who were admitted to study at the Main Campus and other University Campuses.

Education, Training and Research

In its endeavor to provide quality education and training, the University entered into collaborations, signed MOUs (Memorandum of Understanding) and organized workshops and seminars with various stakeholders. Notably;

Kenyatta University hosted a week-long training programme on international health informatics. Health informatics is the science of health information which is greatly enhanced by the information communication technologies. The programme is tailored to meet the skills-gap challenge for low-and middle-income countries and attracted participants from South Africa, Zambia, Tanzania, Kenya and Switzerland. The course has been collaboratively developed by five universities under the secretariat of the USAID-funded MEASURE Evaluation project based at the University of North Carolina, USA.

Kenyatta University in partnership with the University of Geneva and UNHCR successfully hosted the Geneva Summer School 2018, an initiative of University of Geneva that aims to foster exchange and

collaboration on topics of global significance. The two weeks programme took place from 10th to 21st September 2018 at the Kenyatta University Conference Centre (KUCC). The Summer School brought together stake-holders in higher education for refugees and host communities worldwide.

Two students from the School of Business travelled to the Masaryk University in the Czech Republic on 6th September 2018 for a period of five months. The two students, Edward Wesonga and Davis Okoth, are beneficiaries of the Erasmus Student Mobility Scheme for staff and students exchange. While at Masaryk University, the students will get an opportunity to learn subjects relevant to their discipline which would earn them credits upon their return. Kenyatta University also got the opportunity to host two staff members from Masaryk University for a week. The two institutions have collaborated through the Erasmus Mobility Programme; European funded programme that offers university students the possibility of studying or doing an internship abroad for a period of at least 2 months and maximum 12 months per cycle of studies, thereby promoting internationalization in institutions of higher learning.

The Sixth African Higher Education Week and the Regional Universities Forum for Capacity Building in Agriculture (RUFO-RUM) Biennial Conference took place between 22nd October 2018 and 26th October 2018 at the Kenyatta International Convention Centre (KICC), Nairobi. The Biennial Conference is RUFORUM's most comprehensive meeting for the diversity of stakeholders in both agriculture and higher education. The 2018 Biennial conference was unique with a focus on university-agriculture community transformation. It provided an opportunity for participants to showcase their innovations as part of enhancing the university-farmer community partnership and engagement for meaningful innovation. The overall theme of the 2018 Conference was "Aligning African Universities to accelerate attainment of Africa's Agenda 2063".

Kenyatta University collaborates with Bonn-Rhein-Sieg University of Applied Sciences (H-BRS) in the framework of the project "Collaboration for Entrepreneurial Universities - CEPU", which is jointly conducted by our two universities as well as Mount Kenya University on the Kenyan side and Leipzig University, Leuphana University Lüneburg, Wismar University of Applied Sciences and Hasso-Plattner Institute on the German side. The project is funded by the German Academic Exchange Service (DAAD) and the Federal Ministry of Economic Cooperation and Development (BMZ). The project kick-off event was held at Kenyatta University on Tuesday, 2nd October 2018, at Kenyatta University main campus. The University is committed to supporting the project's objective of strengthening the labour market-oriented approach of universities in Africa by combating graduate unemployment through strategic alignment with the labour market

The School of Security Diplomacy and Peace Studies at Kenyatta University holds annual conferences on divergent topical issues. The theme of this year's International Conference was '20 years since the Rome Statute of the International Criminal Court (ICC)'. The proposed theme for the 2019 conference will be 'prospects for peace and security in Southern Sudan'. This year's conference brought together academic experts on International Criminal Justice to discuss and dialogue on the subject that is neither political nor activist oriented. The objective was to have an enriched academic dialogue between academics,

practitioners and experts on African governance.

Kenyatta University in collaboration with Kenya Industrial Property Institute (KIPI) launched the Technology and Innovation Support Centre that will aid the innovation process in the following three ways:

1. Strengthening the institutional capacity to offer a variety of IP services to its clients including patent searches, patent drafting and assistance in prosecution of IP applications.
2. Increasing accessibility by Kenyatta University to technological information contained in patent and other technological information.
3. Increasing innovative and inventive outputs manifested by increased patent filing by or through Kenyatta University.

Staff Training

During the year, the University sponsored staff for training within and outside the University notably;

Kenyatta University hosted a five-day training of Clinical Trainers (TCT) Course of the Family Medicine Leadership, Education and Assessment Programme (FaM-Leap) from 4th to 8th March 2019. KU was privileged to host the training and will continue to support similar initiatives and collaborations in staff development and collaborative research. The University wishes to see the number of Ph.D holders in the field of medicine increased. I therefore encourage the Deans and other senior staff from medicine-related Schools and Departments in the University to seek support and collaborations towards that venture. The training workshop attracted a number of delegates drawn from the United Kingdom, United States of America, South Africa, Rwanda, Sierra Leone, Ghana, Nigeria, Uganda, Ethiopia and Kenya.

The University held a training workshop for all Deans, Directors and Chairpersons of Departments on Wednesday 27th February 2019. The two day training workshop was geared towards sensitizing and enabling the participants to understand their individual and collective roles in articulating and implementing University policies in their respective areas of jurisdiction. This workshop not only gave them an opportunity to discuss and ensure that they all have the same understanding of the University policies, but also enable them understand what the University Management expects of them as the administrative and academic heads of their respective Campuses, Schools, Directorates or Departments.

Achievements

Kenyatta University choir continued its dominance of the Kenya Music festival in the University category winning for best overall public University for the 9th year running. KU won in 29 of about 55 items entered in the festivals and was presented with the winner's trophy by President Uhuru Kenyatta during the Sagana State Lodge awards. KU choir competed against 9 other universities in all categories. This is an exemplary performance which was a continuation of the University dominance and wins following last year's festival.

It was pomp and glamour at the cocktail that marked the 2018 edition of the KUZA broadcasting awards that aim to celebrate the milestones achieved by broadcasters and push them to strive for quality services and compliance with regulatory standards by the Communications Authority. Kenyatta University Television (KUTV) took home a gold award for Local Content Prime Time Award, beating all other local stations in Kenya.

Kenyatta University Scout's Troop emerged the National Champions at the recently concluded National Inter-patrol Scout's competitions/challenge which took place in Rowallan National Scout's Camp from 5th to 9th August 2018. The University was well represented by two patrols namely Kanga (female team) and Kiwi (male team) in the rover challenge. The theme of this year national competition was 'Scouts promoting food security through sustainable conservation'. The rover challenge is divided into projects and bases; that tested the participants' knowledge, authenticity, innovation and creativity in tackling the Big Four Agenda in Kenya.

The Kenyatta University Scouts Troop also emerged as 1st runners up, against their other worthy opponents from the East African community during the East African Zonal Scouting Competitions held in Burundi last month. Known as the KIWI crew, the KU scouts team took on close to 300 scouts drawn from Uganda, Tanzania, Rwanda, South Sudan, Ethiopia and Burundi in the competition. At this international inter-Universities level of competition, participants were challenged and their abilities tested on a range of issues. The winners were awarded certificates and a trophy for the work done.

Other Activities

Kenyatta University held its 26th edition of Culture Week from 1st to 3rd November 2018 at the Main Campus. Kenyatta University has come a long way since the seeds of the first Culture Week were sowed in 1992. Over the years, Kenyatta University has seen a phenomenal outburst of talents among students and staff. Our alumni have gone on to display great skills in a variety of areas, among them drama, music, film and sports. Most of these talents have actually been developed and showcased during the Culture Week Festivals. This year's festival theme was 'Cultural Diplomacy for Peace', which resonates well with the need to exchange ideas, information, art, language and other aspects of culture among nations and their peoples in order to foster mutual understanding.

Kenyatta University Students Association (KUSA) held an inauguration ceremony for incoming executive officers of the Students Governing Council (SGC) on Thursday, 25th October 2018, at the Business and Students' Services Centre. The officers were sworn into their new positions after a campaign period that ran for the better part of early October, with voting taking place between the 17th and 18th of the same month. I commend the grace and dignity with which the students and those seeking elective posts conducted themselves during elections, which were being held for the second time using a new format, following the amendment to the Universities Act (2016).

The School of Education in collaboration with Kenya National Commission for UNESCO (KNATCOM) celebrated the World Teachers' Day on 5th October 2018 at the College of Education Building. Members of University Management and Dr. Christopher K. Yegon, Deputy Director, Directorate of University

Other partners included Officials from UNES-CO – KNATCOM, who played a major role in the planning of the event alongside the School of Education.

The 2019 Career Week saw over 10,000 high schools students and form four leavers' flock into the Kenyatta University grounds to learn and be educated about career paths as well as being provided with the tools needed to succeed in life. Career week which is one of the most anticipated events on the KU calendar has grown in leaps and bounds over the years. The theme this year was: "Integrating soft skills to enhance professionalism and career development" and began on 26th January and ended on 1st February 2019. This year's climax included a career clinic and mentor's day held on 1st February that saw over 1,500 high school leavers along with their parents and guardians converge at the amphitheatre for the inaugural mentors day presided over by the KU career office. The form four leavers were given a detailed talk on the various courses available in Kenyatta University and were urged to choose Kenyatta University as their university of choice.

Ugandan President, H.E. Yoweri Kaguta Museveni, delivered a public lecture at Kenyatta University themed 'Integration in Africa' on 29th March 2019. During the public lecture, President Museveni said that integration was the only way African countries would reach the status of Europe, China and the United States. He criticized tribalism which, he noted, characterized the continent's political landscape. President Museveni said that while a large portion of the continent's problems can be blamed on its colonial history, Africa's leaders have to unite to secure its future. "Africa is the pioneer of civilization. The free labour of (African) slaves is part of the efforts that liberated Europe from poverty," he said. However, despite the continent's contribution to industrial revolution, President Museveni expressed his disappointment that African countries are still struggling in terms of development. This he blamed on 'political balkanization.'

The United Nations Inter-national Mother Language Day annually celebrates language diversity and variety globally on 21st February since the year 2000. This year's International Mother Language Day was celebrated and hosted by Kitui County in conjunction with Kenyatta University, Kitui Campus and State Department of Culture and Heritage under the Ministry of Sports, Culture and Heritage and East African Educational Publishers on Friday 21st February 2019. This year's Mother Language Day fête was part of an International conference organized and held at Kenyatta University, Kitui Campus, from Wednesday 20th to Friday 22nd February 2019. The day's celebrations marked through various activities such as cultural dances, music, dances and exhibitions, brought out the significance of marking the day. The epitome was an address by the keynote speaker, Prof. Ngugi Wa Thiong'o, an award-winning, world-renowned Kenyan writer and academic scholar who also launched a book written in Kikamba and published by the East African Educational Publishers.

CORPORATE GOVERNANCE STATEMENT

Introduction

The statement outlines the key aspects of the University's corporate governance framework. Corporate governance is the process by which the University is directed, controlled and held to account. It provides the structure through which the strategic objectives of the University are set, and the means of attaining them as well as monitoring performance. Corporate Governance dictates the engagement between the University Council, Senate, Management Board, Regulators and all Stakeholders.

The University in its decision-making processes observes the highest ethical standards and benchmarks on global best practices in compliance with the applicable legal principles, its vision, mission, and core values for sustainability of the University.

The governing organs of the University are:

- (i) The University Council;
- (ii) The Senate of the University;
- (iii) The University Management Board.

(i) The University Council

Council Charter

The Council is guided by the Council Charter which defines the governance guidelines within which the Council exists and operates. It clearly states the respective roles, responsibilities and authorities of the Council and its Committees.

Council Appointment and Composition

In accordance with the Universities Act No. 42 of 2012, clause 36(1) the Council consists of nine persons appointed by the Cabinet Secretary for a period of three years and who are eligible for re-appointment for a further one term. The persons are as follows:

- ☐ The Chairperson
- ☐ Principal Secretary, Ministry for the time being responsible for the University Education
- ☐ Principal Secretary, Ministry for the time being responsible for Finance and The National Treasury
- ☐ Five members appointed by the Cabinet Secretary, Ministry for the time being responsible for University Education
- ☐ The Vice-Chancellor who is an ex-officio member of the Council.

The University Charter (Clause 17) requires that the members of the Council at the first meeting after their appointment determine by lot which of their number shall vacate office after a period of three and four years respectively.

Council Diversity

The Council members possess a broad range of skills, expertise, experience and knowledge essential to undertake the University's mandate. The areas of expertise of the current Council members include Sociology, economics, Counseling Psychology, International relations, Business Administration, among others as indicated on pages 9 to 11 of this Annual Report.

The University endeavors to and remains compliant with the one third (1/3) gender balance.

CORPORATE GOVERNANCE STATEMENT

Separation of Powers and Duties

The Chairman of Council's responsibilities include the operation, leadership and governance of the Council, ensuring its effectiveness and setting its agenda. The Vice-Chancellor's role and responsibilities include the day-to-day management of the University's business and overseeing the implementation of strategies and policies approved by the Council. This is clearly stipulated in the University Statutes.

Powers and Functions of the Council

The powers and functions of the Council include:

- ☐ To make new or additional Statutes, alter, amend or revoke existing Statutes in consultation with the Senate;
- ☐ To establish such standing or other committees with membership and with such terms of reference as it may deem fit;
- ☐ To make regulations in accordance with the Charter for any purpose in respect of which regulations may be made, provided that no regulations shall be made until Senate has had an opportunity of reporting thereon;
- ☐ To provide the land, building, premises, furniture and equipment, including specialized scientific equipments, vehicles, machinery, facilities and other means required for carrying out the work of the University;
- ☐ To determine method of recruitment, appointment and promotion of all staff of the University;
- ☐ To make the appointments authorized by the Charter and the Statutes and to determine the terms and conditions of service for all staff of the University;
- ☐ To provide for the welfare of every person in the employment of the University;
- ☐ To establish, confirm, abolish or hold in suspense any professorship, lectureship or other academic, as well as other senior administrative posts in consultation with the Senate;
- ☐ To confer, after report from Senate, the title of Professor Emeritus, Adjunct Professor, Adjunct Faculty and other senior staff;
- ☐ To receive, consider and approve from University Management Board estimates of expenditure required to carry out the work of the University and to provide the requisite in so far as the estimates are approved and accepted by the Council;
- ☐ To provide control and regulate the finances of the University as the Council may provide in the Statutes or Regulations from time to time;
- ☐ To control, manage and regulate accounts, investment property and all the business affairs of the University and for that purpose appoint bankers, auditors, lawyers or any other agent as the Council may deem necessary from time to time;
- ☐ To promote and make financial provisions and facilities for research within the University;
- ☐ To determine, after considering the recommendations of Senate, all fees payable to the University;
- ☐ To invest any moneys belonging to the University including any unapplied income, in such stocks, funds, fully paid shares or securities as Council may from time to time think fit, in accordance with the general law for the investment of trust moneys or in the purchase of freehold or leasehold properties, including rent and subject to the Charter

CORPORATE GOVERNANCE STATEMENT

with the power of varying such investment from time to time by sale or re-investment or otherwise;

- ☐ To sell, buy, exchange, lease, grants or take on lease moveable and immovable property on behalf of the University, pursuant to section 17 of the Charter;
- ☐ To borrow money on behalf of the University, and for that purpose and subject to the Charter, to mortgage or charge all or any part of the property unless the conditions of the property so held provide otherwise, and to give such other security whether upon moveable property or otherwise as the Council may deem fit;
- ☐ To enter into, vary, carry out or terminate contracts on behalf of the University;
- ☐ To select a Seal, Arms and Mace for the University and to have the sole custody and use of the Seal;
- ☐ To provide by Statutes for the creation of new Colleges, Campuses, Schools, Departments, Directorates, Institutes, Centres or other bodies of learning and research in the University and for the abolition from time to time of any such bodies, and to approve the establishment, abolition or sub-division of any such bodies on the recommendation of Senate;
- ☐ To institute, on the recommendation of Senate, donors' fellowships, studentships, exhibitions, bursaries, prizes and other aids to study and research where appropriate and upon conditions acceptable to the Council;
- ☐ To determine the terms and conditions upon which Internal and External Examiners shall be appointed by the Senate;
- ☐ To consider and give effect to reports from Senate on those matters upon which Senate is authorized or required to make by the Statute;
- ☐ To exercise powers of removal from office for good cause of any officer or staff member and other disciplinary controls in the University;
- ☐ May empower any of its committee to act jointly with any committee appointed by the Senate, provided that the Council shall not delegate to the Chairperson or to a committee the powers to approve without further reference to the Council the annual Estimates of Expenditure;
- ☐ May refer any financial matters affecting the academic policy of the University to the Senate for advice;
- ☐ Shall determine the method and condition of appointment and promotion, terms of service and remuneration of all staff of the University;
- ☐ Shall authorize or control the establishment and disestablishment of Campuses, Colleges, Schools, Departments, Directorates, Institutes, Bureau, Units and Centres;
- ☐ Shall authorize or control the establishment and disestablishment of academic, library, administrative, technical, secretarial and all other posts in the University necessary for the proper functioning of the University;
- ☐ Shall control the appointment of any other persons working for the University, pay honoraria, fees and other remuneration as the Council may determine from time to time.

CORPORATE GOVERNANCE STATEMENT

Meetings of the Council

While the Council is responsible for its agenda, it is the responsibility of the Chairperson and the Council Secretariat working closely with the Vice-Chancellor, to come up with the Annual Council Work Plan and Agenda for the Council meetings.

The Council Work Plan together with the calendar of meetings for the Financial Year 2018/2019 was fixed in advance and provided to all Council members. The agenda and supporting papers were distributed in advance to all members of the Council and its Committee's.

Unless the Council otherwise determines, meetings of the Council are held at least four times in each calendar year at such a place and time as the Chairperson may determine.

At all meetings of the Council, a quorum is the nearest whole number above half the membership of the Council.

Where consensus is not achieved, decisions of the Council may be by a simple majority vote of those present and voting, provided that the Chairperson of the council shall have a casting vote in case of an equality of votes.

The Chairperson may at any time call a meeting of the Council within twenty eight (28) days of receiving request for that purpose addressed to him and signed by at least a half of the membership of Council.

Councils' Effectiveness

In order to ensure that the Council members are effective in their contribution to the management of the University, it is important that they develop good understanding of the University and its operations.

Council members undergo regular training to enable them to fulfill their responsibilities.

The University has also developed a comprehensive induction program and inducts all new board members.

Evaluation

The Council has put in place evaluation system to ensure that the Council achieves its objective. In the year 2018/2019, the University conducted evaluation of Council on 27th June 2019.

Council Committees

The University has a total of four committees and five boards whose chairperson reports to the main Council and assists in executing the mandate of the Council and by extension, the University.

Council Remuneration

The University Non-Executive Council Members are paid a sitting allowance for every meeting attended. They are not eligible for pension scheme membership. However the Chairman of Council receives honoraria on a monthly basis as indicated in Note 10 of the Financial Statements.

Council allowances are based on approved rates and guidance provided in Government Circulars

Conflict of Interest

The Council members are obligated to fully disclose to the Council any real or potential conflict of interest, which comes to any Council member's attention, whether direct or indirect. At any meeting the Council members are expected to make a declaration of any interest they may have in the business under discussion. In the financial year under review, there were no transactions with any of the Council members or their related parties.

Code of Conduct and Ethics

The University has a code of conduct and ethics policy that binds the Council members, management and employees. When joining the University, every employee is provided with a copy of the code of conduct and ethics policy and must commit to abide by its requirements as part of the employment contract with the University.

Whistle Blowing Policy

This is provided for in Kenyatta University Anti-Corruption Policy Clause 17, which states that the University undertakes to protect the identity of persons making corruption disclosures, and the information provided therein shall be handled in utmost confidentiality. Allegations that are false and made with malicious intent are discouraged. Where such malicious or allegations are discovered, the person who made the allegation shall be subjected to disciplinary action.

Risk Management and Internal Controls

The University Council is responsible for the University system of risk management and internal control, which is designed to identifying potential risks in advance, analyzing them and taking precautionary steps to reduce/curb the risk.

The Council has delegated responsibility for the ongoing monitoring of the effectiveness of this system to the Audit Committee. Details in relation to the Audit Committee's work in this regard are set out in the University Statutes.

CORPORATE GOVERNANCE STATEMENT

The Vice-Chancellor is responsible for implementing the system, including a system of internal controls and audits, to identify and manage risks that are material to the University. Independent review of the risk management framework is carried out through the University Internal Audit function that carries out risk based internal audit on regular basis.

The University has an in-house legal officer and has appointed advocates to advice on litigation risks. The identification and management of risk is a continuous process linked to the achievement of the University's objectives. The University Council through its Audit Committee receives regular reports during the year on internal controls and risks.

The University's Key Risks include;

1. Strategic/Commercial Risks
2. Economical/Financial/Market Risks
3. Legal and Regulatory Risks
4. Organization/Management/Human Factor Risks
5. Political Risks
6. Environmental Risks
7. Technical/Operational/Infrastructure Risks

Compliance

The Council operates in a manner reflecting the University's values and in accordance with the Corporate Guidance, the University Act, University Charter, University Statutes, Council Charter, Mwongozo and all other applicable regulations.

The Council is committed to ensuring that it complies with all applicable laws and regulations

Governance Audit

~~The University did not conduct governance audit this year but the same will be conducted in the year 2018/2019.~~

Stakeholders

Stakeholders may be categorized, on the basis of location, into internal and external. Internal stakeholders include those inside the University. These include students and employees. On the other hand, external stakeholders are based outside the University, but have implications for survival of the University. These include customers, suppliers, government agencies, development partners, local communities, alumni, external examiners and trade unions.

Going Concern

The Council is committed to ensuring that the University has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

CORPORATE GOVERNANCE STATEMENT

Conclusion

The Council recognizes that practices and procedures can always be improved. Accordingly, the corporate governance framework of the University is kept under review to take account of changing standards and regulations.

University Net Assets

The University Net Assets are composed of;

1. Revaluation Reserves
2. Accumulated Surplus
3. Capital Fund (Government Capital Grants)

Although the University's net assets declined from Kshs 13,940,384,630 in the year 2018 to Kshs 13,262,580,873 in the year 2019, the net assets have increased from Kshs 11,406,729,077 in the year 2015 to Kshs 13,262,580,873 in the year 2019 as illustrated in the graph below.

MANAGEMENT DISCUSSION AND ANALYSIS

Conclusion:

The University reported deficit in the last two years, with its revenue declining from Kshs 9,505,043,970 in the year 2018 to Kshs 8,537,343,598 in the year 2019. However this has been matched with decrease in expenditures by Kshs 1,947,799,033 due to cost cutting measures implemented by Management. Its net assets have declined from Kshs 13,940,384,630 in 2018 to Kshs 13,262,580,873 as a result of the deficit reported. With revenue enhancement and cost cutting measures implemented by Management we are optimistic that the situation will improve in the foreseeable future.

B. University's Compliance with Statutory Requirements

The University has endeavored to comply with statutory requirement, however for the last two years the University has not been able to remit payroll statutory deductions as indicated in note 23 of the Financial Statements.

C. Key Projects and Investment Decisions the University is Planning/Implementing

D. Major Risks facing the University

The University has identified the following Key Risks;

1. Financial Risk-the University is unable to meet its obligations as and when they fall due
2. Commercial Risk-the University has experienced drastic reduced number of self-sponsored students.
3. Infrastructural Risk-there is a number of stalled projects due to lack of funds.

E. Material Arrears in Statutory/Financial Obligations

The University has not been in a position to meet its expenditures as and when they fall due. At the end of the financial year 2018/2019 the University had not paid its obligations as per note 23 of the Financial Statement.

CORPORATE SOCIAL RESPONSIBILITY STATEMENT

Introduction

Kenyatta University commits itself to engaging in robust corporate social responsibility (CSR) programmes that demonstrate its good citizenship based on the triple bottom line: people, planet and revenue. Increased revenue in form of profits is put into programs that benefit people in the communities around the University. This is achieved by focusing on the following categories:

1. **Philanthropy:** With the resources the University has, social responsibility is practiced by making donations in form of products, money and services to social causes and nonprofits to benefit charities and local community programs.
2. **Environmental efforts:** At the heart of Kenyatta University's focus of CSR is the environment. The University reduces the large carbon footprints to levels that are considered favourable and beneficial to both the organization and the community.
3. **Ethical labour practices:** Kenyatta University is committed to treating its employees fairly and ethically by ensuring both governing and international labour laws are operationalized.
4. **Volunteering:** The University tackles various community issues by engaging the community with its staff and students in activities and deeds that do not expect any form of return.

For the University to implement and accomplish these key areas of focus, the University initiated the Directorate of Community Outreach and Extension Programmes (COEP) in August 2007. The main objective of the Directorate was to reach out to communities by extending knowledge, skills and other resources to improve their quality of life. The Directorate further helps communities identify, mobilize and utilize their resources that are available to them not only for their own development but for empowerment.

Kenyatta University is endowed with human, financial, tangible and information resources. Because of its diversity in areas of training, research and experiences, the Directorate of COEP gives both staff and students an opportunity to extend its services to communities in any part of this nation and beyond. It is this gesture that KU draws inspiration from- Service to humanity.

CSR Programmes

Driven by inclusivity; enhancing natural capacities and networks; coordination; need-driven and holistic, reflective and evaluative; socially, collaboratively and democratic; and celebratory, as the seven guiding principles, the Directorate of COEP achieves the University's CSR objective through the following programmes:

1. **Community Need Based (CNB) programmes:** These are programmes that involve participatory identification of specific needs within a community and using that information to develop and implement interventions. Activities in these programmes are further divided into:
 - i) **Training need based:** These activities involve teaching and training a particular community in areas of focus to the development of the community.
 - ii) **Philanthropy based:** These activities involve giving products and services to a community that is in need with an objective of improving their lives.
2. **Response to National Crises (RNC) programmes:** These are programmes that ensure a prompt address to occurrences that lead to disruption of normal living conditions affecting the entire section of the population based on the affected people's needs.

CORPORATE SOCIAL RESPONSIBILITY STATEMENT

Besides these activities, the University acknowledges partnerships, collaborations and associations geared towards attainment of its objective as far as corporate social responsibility is concerned. Some of the partnerships drawn to the Directorate of COEP include:

- i) Navigators Economic Projects Transformational Facility (EPTF), Kenya
- ii) United Cultural Empowerment and Social Community Organization (UCESCO)
- iii) University of Hungary

Achievements of the CSR activities

Kenyatta University through the Directorate of COEP has ensured that the CSR activities are integrated into its economic, social, societal and environmental objectives to create a socially responsible work environment. By so doing, the following has been achieved:

- i) Generation of a positive publicity and reputation
- ii) Increased patronage and consumer appeal
- iii) Talent attraction and Employee satisfaction and retention
- iv) Strong client and community relations
- v) Triple bottom line effect towards people, planet and revenue

STATEMENT OF COUNCIL MEMBERS RESPONSIBILITIES

Section 81 of the Public Finance Management Act, 2012, section 15 of the State corporation Act and section 47 of the University Act, 2012, require that the Council prepares financial statements in respect of the University, which give a true and fair view of the state of affairs of the University at the end of the financial year and the operating results of the University for that year. The Council is also required to ensure that the University keeps proper accounting records which disclose with reasonable accuracy the financial position of the University and is responsible for safeguarding the assets of the University.

The Council is responsible for the preparation and presentation of the University's financial statements, which give a true and fair view of the state of affairs of the University for and as at the end of the financial year ended on June 30, 2019. This responsibility includes: (i) maintaining adequate financial management arrangements and ensuring that these continue to be effective throughout the reporting period; (ii) maintaining proper accounting records, which disclose with reasonable accuracy at any time the financial position of the University; (iii) designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements, and ensuring that they are free from material misstatements, whether due to error or fraud; (iv) safeguarding the assets of the University; (v) selecting and applying appropriate accounting policies; and (vi) making accounting estimates that are reasonable in the circumstances.

The Council accept responsibility for the University's financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Public Sector Accounting Standards (IPSAS) Accrual, and in the manner required by the University Act, 2012 and Kenyatta University Charter. The Council is of the opinion that the University's financial statements give a true and fair view of the state of University's transactions during the financial year ended June 30, 2019, and of the University's financial position as at that date. The Council further confirm the completeness of the accounting records maintained for the University, which have been relied upon in the preparation of the University's financial statements as well as the adequacy of the systems of internal financial control.

The University Council is committed to have the University be and remain a going concern for at least the next twelve months from the date of this statement.

Approval of the financial statements

REPORT OF THE AUDITOR-GENERAL ON KENYATTA UNIVERSITY FOR THE YEAR ENDED 30 JUNE, 2019

REPORT ON THE FINANCIAL STATEMENTS

Qualified Opinion

I have audited the accompanying financial statements of Kenyatta University set out on pages 3 to 39, which comprise the statement of financial position as at 30 June, 2019, and the statement of financial performance, statement of cash flows, statement of changes in net assets and statement of comparison of budget and actual amounts for the year then ended, and a summary of significant accounting policies and other explanatory information in accordance with the provisions of Article 229 of the Constitution of Kenya and Section 35 of the Public Audit Act, 2015. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements present fairly, in all material respects, the financial position of Kenyatta University as at 30 June, 2019 and of its financial performance and its cash flows for the year then ended, in accordance with International Public Sector Accounting Standards (Accrual Basis) and comply with the Public Finance Management Act, 2012 and the University's Act, 2012.

Basis for Qualified Opinion

1.0 Going Concern

During the year under review, the University recorded a deficit of Kshs.677,803,757 (2018-deficit of Kshs.2,109,408,511) thus reducing the accumulated surplus from Kshs.6,522,406,889 in June, 2018 to Kshs.5,844,603,131 as at 30 June, 2019. Further, the current liabilities of Kshs.5,497,338,841 exceed the current assets of Kshs.1,675,332,451 resulting to a negative working capital of Kshs.3,822,006,390 which indicates that the University was unable to meet its financial obligations as and when they fall due. In particular, the University was unable to remit pension and taxes amounting to Kshs.2,920,340,762, audit fees of Kshs.6,400,000 and other deductions of Kshs.412,300,504 to the respective beneficiaries thereby risking fines and penalties. Although the University Management has put in place stringent cost cutting and revenue enhancement measures to address the financial challenges, the debt still remains unpaid.

The University is therefore operating under financial difficulties and has currently resulted to financing its operations using costly short-term borrowings which may further worsen the liquidity position. Therefore, the University is technically insolvent and it may not be able to meet its mandate in future. The financial statements have therefore been prepared on a going concern basis on assumption that it will continue to receive financial support from Government, creditors and donors.

2.0 Property, Plant and Equipment

2.1 Encroached Land

As reported in the previous years, the property, plant and equipment balance of Kshs.17,766,272,655 reflected in the statement of financial position includes land registration No.11026/2 measuring 445.17 hectares on which the main campus of the University stands. Included in the 445.17 hectares is a portion of land measuring 12.472 hectares valued at Kshs.123,281,555 that has been illegally encroached upon by informal settlers. Although the University has filed a case in a Court of law against the illegal encroachment, the matter has not been determined and the informal settlers continue to erect buildings on the land.

2.2 Land without Ownership Documents

The property, plant and equipment balance of Kshs.17,766,272,655 further includes land measuring thirty-two (32) hectares allocated to the University from Lagdera Constituency Development Fund in Garissa County. The University has paid registration fees of Kshs.880,000. Available information indicates that the University has obtained a Letter of No Objection dated 20 August, 2019 from the County Government of Garissa. The University has also obtained drawings for the Part Development Plan (PDP) awaiting advertisement, before submitting them to the National Director of Physical Planning for approval and issuance of an Allotment Letter.

2.3 Kenyatta University Teaching, Research and Referral Hospital

The property, plant and equipment balance of Kshs.17,766,272,655 as at 30 June, 2019 excludes the value of Kenyatta University Teaching, Research and Referral Hospital that stands on the Universities 7.97 hectares of land. The Hospital was built after the Kenya Government entered into a concessional loan agreement with Export-Import Bank of China for a concessional loan of Kshs.8,756,625,600. However, supporting documentation of the construction of the hospital were not availed for audit verification. Further, the Government through Legal Notice No.4 of 25 January, 2019 gazetted Kenyatta University Teaching, Research and Referral Hospital into a state corporation.

In view of the foregoing, the University's property, plant and equipment balance of Kshs.17,766,272,655 as at 30 June, 2019 could not be confirmed as fairly stated.

3.0 Receivables from Non-Exchange Transactions

3.1 Car Loans

As previously reported, the receivables from non-exchange transactions balance of Kshs.730,322,130 reflected in the statement of financial position as at 30 June, 2019 includes an amount of Kshs.6,327,583 in respect of staff debts, out of which Kshs.1,421,445 relates to car loans due from four (4) officers who have since left the University. The amount has been outstanding for long period of time. The loans were issued by the National Bank of Kenya and guaranteed by the University but the staff defaulted in repayment after they left the University. The bank however recovered the amounts owed together with accrued interest from the fixed deposit account of the University. Although the car loan debts are being followed by the University lawyer through legal channels and the appointed debt collection firm, the University has not fully recovered the outstanding loans from them. It is also not clear how the vehicle logbooks were released to the ex-staff and how the ex-employees were cleared by Management before the University had fully recovered the outstanding loans from them.

3.2 Outstanding Imprest

The receivables from non-exchange transactions balance of Kshs.730,322,130 also includes outstanding imprests totaling Kshs.14,448,286 out of which imprest amounting to Kshs.9,380,326 has been outstanding for over a year. The University has indicated that recovery of the long outstanding imprests is being followed through legal channels and a debt collection firm has been appointed to assist in collecting the debts.

Under the circumstance, recoverability of the receivables amounting to Kshs.10,801,771 is doubtful.

4.0 Nugatory Expenditure - Closure of Kigali and Arusha

As previously reported, Kenyatta University incurred a total of Kshs.518,174,359 to set up both Kigali campus in Rwanda (Kshs.420,749,207) and Arusha campus in Tanzania (Kshs.97,425,152). However, the University closed down the two campuses due to operational challenges apparently imposed by change in legislation by both the Government of Rwanda and the Government of the United Republic of Tanzania after the University had just met all the requirements and was ready to roll out programmes.

Management had indicated that, out of Kshs.97,425,152 investment in Arusha Campus in Tanzania, an amount of Kshs.90,016,542 was expenditure on salary, rental, operations and maintenance expenses hence not recoverable. A balance of Kshs.7,408,610 was in relation to furniture and equipment that were brought to the main campus and distributed to various departments. However, the inventory of such assets was not availed for audit verification. Further, The National Treasury has granted approval for disposal of the property in Kigali Campus.

Although the university has explained that all the due diligence was done before the decision to open up the two campuses, the Management has not made any recovery on the amount so far incurred totalling Kshs.518,174,359.

The audit was conducted in accordance with International Standards of Supreme Audit Institutions (ISSAIs). I am independent of the Kenyatta University Management in accordance with ISSAI 130 on Code of Ethics. I have fulfilled other ethical responsibilities in accordance with the ISSAI and in accordance with other ethical requirements applicable to performing audits of financial statements in Kenya. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, are of most significance in the audit of the financial statements. There were no key audit matters to report in the year under review.

Other Matter

Budgetary Control and Performance

The statement of comparison of budget and actual amounts indicates that the University had an approved revenue budget of Kshs.7,335,002,303 against actual receipts of Kshs.8,860,788,646 resulting to a surplus of Kshs.1,525,786,343. Similarly, the University had an approved expenditure budget of Kshs.9,301,246,904 against actual expenditure of Kshs.9,538,592,402 resulting into an over-expenditure of Kshs. 237,345,498 or 3%. The receipts surplus was attributed to stringent measures implemented on fees collection while the over-expenditure occurred mainly due to an increase in depreciation of assets that was not considered in the budget. However, there is need by the University to refocus on budgeting on its own locally generated funds.

REPORT ON LAWFULNESS AND EFFECTIVENESS IN USE OF PUBLIC RESOURCES

Conclusion

As required by Article 229(6) of the Constitution, based on procedures performed, except for the matters described in the Basis for Conclusion on Lawfulness and Effectiveness in Use of Public Resources section of my report, I confirm that, nothing else has come to my attention to cause me to believe that public resources has not been applied lawfully and in an effective way.

Basis for Conclusion

1.0 Ethnic Diversity

A review of the University staff data as of 30 June, 2019 revealed that one ethnic community accounted for 40% of Council members, 45.4% of senior management and 40.7% of permanent staff. This is contrary to Section 7(2) of the National Cohesion and Integration Act, 2008 which states that no public establishment shall have more than one third of its staff from same ethnic community.

The University was therefore in breach of the Law.

2.0 Non-Compliance with One Third Basic Pay Rule

Analysis of the payroll data for the year ended 30 June, 2019 revealed that there was a monthly average of one hundred and sixty (160) University employees who were being paid net salary that is less than a third ($\frac{1}{3}$) of their basic pay. This is contrary to Section C.1(3) of the Human Resource Policies and Procedures Manual for the Public Service dated May, 2016 which states that public officers shall not over-commit their salaries beyond two thirds ($\frac{2}{3}$) of their basic salaries and Heads of Human Resource Units should ensure compliance.

The audit was conducted in accordance with ISSAI 4000. The standard requires that I comply with ethical requirements and plan and perform the audit to obtain assurance about whether the activities, financial transactions and information reflected in the financial statements are in compliance, in all material respects, with the authorities that govern them. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

REPORT ON EFFECTIVENESS OF INTERNAL CONTROLS, RISK MANAGEMENT AND GOVERNANCE

Conclusion

As required by Section 7(1)(a) of the Public Audit Act, 2015, based on the audit procedures performed, I confirm that, nothing has come to my attention to cause me to believe that internal controls, risk management and overall governance were not effective.

Basis for Conclusion

The audit was conducted in accordance with ISSAI 2315 and ISSAI 2330. The standards require that I plan and perform the audit to obtain assurance about whether effective processes and systems of internal control, risk management and governance were operating effectively, in all material respects. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my conclusion.

Responsibilities of Management and those Charged with Governance

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (Accrual Basis) and for maintaining effective internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error and for its assessment of the effectiveness of internal control, risk management and governance.

In preparing the financial statements, Management is responsible for assessing the University's ability to continue as a going concern, disclosing, as applicable, matters

related to going concern and using the going concern basis of accounting unless Management is aware of the intention to terminate the University or to cease operations.

Management is also responsible for the submission of the financial statements to the Auditor-General in accordance with the provisions of Section 47 of the Public Audit Act, 2015.

In addition to the responsibility for the preparation and presentation of the financial statements described above, management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities which govern them, and that public resources are applied in an effective way.

Those charged with governance are responsible for overseeing the University's financial reporting process, reviewing the effectiveness of how the entity monitors compliance with relevant legislative and regulatory requirements, ensuring that effective processes and systems are in place to address key roles and responsibilities in relation to governance and risk management, and ensuring the adequacy and effectiveness of the control environment.

Auditor-General's Responsibilities for the Audit

The audit objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion in accordance with the provisions of Section 48 of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement and weakness when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

In addition to the audit of the financial statements, a compliance audit is planned and performed to express a conclusion about whether, in all material respects, the activities, financial transactions and information reflected in the financial statements are in compliance with the authorities that govern them and that public resources are applied in an effective way, in accordance with the provisions of Article 229(6) of the Constitution and submit the audit report in compliance with Article 229(7) of the Constitution.

Further, in planning and performing the audit of the financial statements and audit of compliance, I consider internal control in order to give an assurance on the effectiveness of internal controls, risk management and governance processes and systems in accordance with the provisions of Section 7(1)(a) of the Public Audit Act, 2015 and submit the audit report in compliance with Article 229(7) of the Constitution. My consideration of the internal control would not necessarily disclose all matters in the internal control that might be material weaknesses under the ISSAIs. A material weakness is a condition in

which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Because of its inherent limitations, internal control may not prevent or detect misstatements and instances of noncompliance. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

As part of an audit conducted in accordance with ISSAIs, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the University's ability to continue as a going concern or to sustain its services. If I conclude that a material uncertainty exists, I am required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my audit report. However, future events or conditions may cause the University to cease to continue as a going concern or to sustain its services.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information and business activities of the University to express an opinion on the financial statements.
- Perform such other procedures as I consider necessary in the circumstances.

I communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that are identified during the audit.

I also provide Management with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: General Information

The University is established by and derives its authority and accountability from the University Act 2012. The University is wholly owned by the Government of Kenya and is domiciled in Kenya. The University's principal activity is to provide quality education and training.

NOTE 2: Statement of compliance and basis of preparation

The University's financial statements have been prepared in accordance with and comply with the Accrual Basis of Accounting method under the International Public Sector Accounting Standards (IPSAS). The financial statements are presented in Kenya shillings, which is the functional and reporting currency of the University. The accounting policies have been consistently applied to all the years presented

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The cash flow statement is prepared using the indirect method. The financial statements are prepared on accrual basis.

NOTE 3: Adoption of New and Revised Standards

i Relevant new standards and amendments to published standards effective for the year ended 30 June 2019

Standard	Impact
IPSAS 40: Public Sector Combinations	Applicable: 1st January 2019 The standard covers public sector combinations arising from exchange transactions in which case they are treated similarly with IFRS 3 (applicable to acquisitions only). Business combinations and combinations arising from non-exchange transactions are covered purely under Public Sector combinations as amalgamations. <i>Not applicable to the University</i>

NOTES TO THE FINANCIAL STATEMENTS (Continued)

ii New and amended standards and interpretations in issue but not yet effective in the year ended 30 June 2019

Standard	Effective date and impact:
IPSAS 41: Financial Instruments	<p>Applicable: 1st January 2022:</p> <p>The objective of IPSAS 41 is to establish principles for the financial reporting of financial assets and liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. IPSAS 41 provides users of financial statements with more useful information than IPSAS 29, by:</p> <ul style="list-style-type: none"> • Applying a single classification and measurement model for financial assets that considers the characteristics of the asset's cash flows and the objective for which the asset is held; • Applying a single forward-looking expected credit loss model that is applicable to all financial instruments subject to impairment testing; and • Applying an improved hedge accounting model that broadens the hedging arrangements in scope of the guidance. The model develops a strong link between an entity's risk management strategies and the accounting treatment for instruments held as part of the risk management strategy.
IPSAS 42: Social Benefits	<p>Applicable: 1st January 2022</p> <p>The objective of this Standard is to improve the relevance, faithful representativeness and comparability of the information that a reporting entity provides in its financial statements about social benefits. The information provided should help users of the financial statements and general purpose financial reports assess:</p> <ol style="list-style-type: none"> (a) The nature of such social benefits provided by the entity; (b) The key features of the operation of those social benefit schemes; and (c) The impact of such social benefits provided on the entity's financial performance, financial position and cash flows.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

iii. Early adoption of standards

The University did not early – adopt any new or amended standards in year 2019.

NOTE 4: Summary of significant accounting policies

a) Revenue Recognition

i) Revenue from non-exchange transaction

These are revenues received by the University from the Government for recurrent expenditures. The University recognizes revenue from non-exchange transaction on accrual basis.

ii) Revenue from exchange transaction

The University recognizes revenue from exchange transaction on accrual basis. This is done when the students register and the amount of revenue can be reliably measured and it's probable that the economic benefit associated with the transaction will flow to the University.

b) Budget information

The annual budget is prepared on the accrual basis, that is, all planned costs and income are presented in a single statement to determine the needs of the University.

c) Property, plant and equipment

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property, plant and equipment are required to be replaced at intervals, the University recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.

All other repair and maintenance costs are recognized in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration the asset is initially measured at its fair value.

Depreciation is calculated on a straight-line basis at annual rates estimated to write off the carrying values of the assets over their expected useful lives.

The annual depreciation rates in use are:

Furniture and Equipments	-	10%
--------------------------	---	-----

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Motor Vehicles	-	25%
Academic Gown	-	5%
Buildings	-	2%
Computers Hardware	-	30%
Computer Software	-	30%
Patent & Rights	-	20%

d) Intangible assets

Intangible assets such as patent rights acquired separately are initially recognized at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortization. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

e) Research and development costs

The University expenses research costs as incurred. Development costs on an individual project are recognized as intangible assets when the University can demonstrate:

- ☐ The technical feasibility of completing the asset so that the asset will be available for use or sale
- ☐ Its intention to complete and its ability to use or sell the asset
- ☐ How the asset will generate future economic benefits or service potential
- ☐ The availability of resources to complete the asset
- ☐ The ability to measure reliably the expenditure during development

Following initial recognition of an asset such as buildings, the asset is carried at cost less any accumulated amortization. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized over the period of expected future benefit.

f) Financial Instruments

Investments

Investments (Fixed Deposits) are recognized at their initial cost add interest earned. The University assesses at each reporting date whether there is objective evidence that a financial asset or an entity of financial assets is impaired. A financial asset or an entity of financial assets

NOTES TO THE FINANCIAL STATEMENTS (Continued)

is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the entity of financial assets that can be reliably estimated.

Receivables

Receivables from exchange transactions (Fees) are recognized when students register with the University. Receivables from non-exchange (other debtors) transactions are recognized when an invoice is raised or at a time when the debt is determinable.

g) Financial Liabilities

Loans and Borrowing

Loans are recognized at initial cost plus directly attributable transaction costs. After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus or deficit when the liabilities are derecognized as well as through the effective interest method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

Inventories

Inventories are measured at the lower of cost and net realizable value. Cost incurred in bringing the product to its present location and condition is included in the cost of inventories. Inventories are recognized as expenses when deployed for utilization or consumption in the ordinary course of operations of the University.

The cost of library books is expensed in statement of Financial Performance in the year that such cost arises.

As at 30th June 2019, the University did a stock take and the stock taking figures were reconciled to the ledger balances for preparation of the Financial Statement.

h) Employee Benefits

The University operates a defined contribution benefit scheme, Kenyatta University Pensions Fund for its employees who are on permanent employment. Defined contribution plans are post employment benefit plans under which an University pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The contributions to fund obligations for the payment of retirement benefits are charged against income in the year in which they become payable.

The University contributed Kshs 407,170,170 in the year 2019, Kshs 461,842,842 in the year 2018, and Kshs 309,745,056 in the year 2017 towards the pension scheme.

i) Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported at the statement of financial position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognized as income or expenses in the period in which they arise.

j) Borrowing costs

Borrowing costs are capitalized against qualifying assets as part of property, plant and equipment. Such borrowing costs are capitalized over the period during which the asset is being acquired or constructed and borrowing costs have been incurred. Capitalization ceases when construction of the asset is complete. Further borrowing costs are charged to the statement of financial performance.

The University had an outstanding balance on long term borrowings of Kshs 659,685,393 (being loan borrowed from Co-operative Bank in the year 2015) as at 30th June 2019. The total interest for the year was KShs 90,395,851 recognized as an expense in the statement of financial performance.

k) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, short-term deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank account balances include amounts held at various commercial banks at the end of the financial year. For the purposes of these financial statements, cash and cash equivalents include short term deposits, cash on hand and cash at bank at the end of the financial year.

In the year 2017-2018, the University had KShs (564,145,093) in cash and cash equivalent compared to KShs (58,236,715) in the year 2018-2019.

l) Provision on bad and doubtful debts

The University provides for bad and doubtful debts at the rate of 10% of the value of debtors at the end of the financial year. The amount recognized as an expense in the statement of performance is the difference between last year's provision (2018) and this year's provision (2019).

	2018	2019
Bad and doubtful debts	457,773,251	391,627,566
Provision for Bad debts @ 10%	45,777,325	39,162,757

Amount recognized in the Statement of performance 2019 is the difference between 2018 and 2019 provision which is Kshs 6,614,569.

m) Subsequent events

There have been no events subsequent to the financial year end with a significant impact on the financial statements for the year ended June 30, 2019.

o) Related Parties

The University regards a related party as a person or an entity with the ability to exert control individually or jointly, or to exercise significant influence over the entity, or vice versa. The National Government, Council Members and Members of Management Board are regarded as related parties.

As at 30th June 2019, The National Treasury had not remitted Kshs 569,936,274.15 for recurrent grant (capitation) which was remitted in the month of July 2019.

Kenyatta University Teaching Hospital

Erected on the University land is the Kenyatta University Teaching Hospital project. The project is through a bi-lateral agreement between the People Republic of China and the Kenya Government through a loan of Kshs 8,756,025,600 processed by the Exim bank of China.

Through the order of the President and Commander in-Chief of Kenya Defence Forces in the Kenya Gazette Supplement No.2, dated 25th January 2019, Legal Notice No. 4, The Kenyatta University Hospital was established as a State Corporation to be known as the Kenyatta University Teaching, Referral and Research Hospital.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The project having been supervised by the University there are unresolved administrative and legal issues including the issue of 7.97 hectares of land. The University Management is pursuing the unresolved issues.

The Council expenses in terms of honoraria, sitting allowances and other expenses are indicated in note 12 of the financial statement.

p) University Performance

In the year 2018-2019, the University reported an improved performance deficit of Kshs 677,803,757 compared to 2017-2018 deficit of Kshs 2,109,408,510.

The improved performance can be attributed to cost cutting and revenue enhancement measures implemented by Management.

The deficit was financed with a bank overdraft approved by the University Council and Treasury which was sourced from Equity bank.

5. SIGNIFICANT JUDGMENTS AND SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the University's financial statements in conformity with IPSAS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and assumptions

The University did not make any key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Useful lives and residual values

The useful lives and residual values of assets are assessed using the following indicators to inform potential future use and value from disposal:

- The condition of the asset based on the assessment of experts employed by the Entity
- The nature of the asset, its susceptibility and adaptability to changes in technology and processes
- The nature of the processes in which the asset is deployed
- Availability of funding to replace the asset
- Changes in the market in relation to the asset

Provisions

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions is included in Note 19.

Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

NOTE 27: Financial Risk Management

The University's activities expose it to a variety of financial risks including credit and liquidity risks and effects of changes in foreign currency. The University's overall risk management programme focuses on unpredictability of changes in the business environment and seeks to minimise the potential adverse effect of such risks on its performance by setting acceptable levels of risk. The University does not hedge any risks and has in place policies to ensure that credit is only extended to customers with an established credit history.

The University's financial risk management objectives and policies are detailed below:

(i) Credit risk

The University has exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk arises from cash and cash equivalents, and deposits with banks, as well as trade and other receivables and available-for-sale financial investments.

Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external assessment in accordance with limits set by the Council. The amounts presented in the statement of financial position are net of allowances for doubtful receivables, estimated by the University's management based on prior experience and their assessment of the current economic environment.

The carrying amount of financial assets recorded in the financial statements representing the University's maximum exposure to credit risk without taking account of the value of any collateral obtained is made up as follows:

	Total amount Kshs	Fully performing Kshs	Past due Kshs	Impaired Kshs
At 30 June 2019				
Receivables from exchange transactions	192,078,954	192,078,954	-	-
Receivables from non exchange transactions	730,322,130	601,866,546	128,455,584	-
Bank balances	669,648,577	669,648,577	-	-
Total	1,592,049,661	1,463,594,077	128,455,584	-

Total	760,486,864	510,372,992	250,113,872	-

NOTES TO THE FINANCIAL STATEMENTS (Continued)

The University's policy is payment on registration and thus students' receivables are categorised as either past due or impaired.

Past due amounts are those beyond the maximum established credit period of 30 days and represent slow but paying students. These receivables continue to be serviced even though this is not done on the contractual dates. The Students Finance Section is actively following these debts.

The overdue and impaired debt arises mainly from the students who have taken academic leave and the ones who have dropped out of school. These students have not completed their courses and the debt is payable whenever the student comes back to continue with studies. This debt has been fully provided for.

Concentration risk

Concentration risk is the risk posed to the University by any single or group of exposures which have the potential to produce losses large enough to threaten the ability of the University to continue operating as a going concern

The student receivables wholly relate to balances due from students, that are unrelated, and do not have the potential to produce large losses thus there is no concentration risk.

(ii) Liquidity Risk Management

Liquidity risk is the risk that the University may be unable to meet short term financial demands. This usually occurs due to the inability to convert a security or hard asset to cash without a loss of capital and/or income in the process.

Ultimate responsibility for liquidity risk management rests with the University management board, which has built an appropriate liquidity risk management framework for the management of the University's short, medium and long-term funding and liquidity management requirements. The University manages liquidity risk by maintaining banking facilities and through continuous monitoring of forecasts and actual cash flows.

Prudent liquidity risk management includes maintaining sufficient cash to meet the University's obligations. Senior management reviews the cash forecasts monthly and determines the University's cash requirement.

The table below analyses the University's financial liabilities into relevant maturity based on the remaining period at the end of reporting period to the contractual maturity date.

The amounts disclosed in the table below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts, as the impact of discounting is not significant.

(iii) Market risk

The Council has put in place an internal audit function to assist it in assessing the risk faced by the University on an ongoing basis, evaluate and test the design and effectiveness of its internal accounting and operational controls.

Market risk is the risk arising from changes in market prices, such as interest rate, equity prices and foreign exchange rates which will affect the University's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Overall responsibility for managing market risk rests with the Audit and Risk Management Committee.

There has been no change to the University's exposure to market risks or the manner in which it manages and measures the risk.

a) Foreign exchange risk

The University is exposed to foreign exchange risk because it has revenues and expenses denominated in foreign currency, primarily the US dollar. It also arises from exchange rate differences between when the currency is received from sponsors and when it is recognised in the books of accounts. The University also has various bank accounts denominated in other currencies other than the Kenya Shillings that is the Dollar, Euro and Pound.

	=====	=====	=====	=====	=====

The University manages foreign exchange risk arising from future commercial transactions and recognised assets and liabilities by projecting for expected cash proceeds and matching the same with expected payments.

b) Interest rate risk

Interest rate risk is the risk that the University's financial condition may be adversely affected as a result of changes in interest rate levels. The University's interest rate risk arises from bank deposits. This exposes the University to cash flow interest rate risk. The interest rate risk exposure arises mainly from interest rate movements on the University's deposits.

Management of interest rate risk

To manage the interest rate risk, management has endeavoured to bank with institutions that offer favourable interest rates.

Fair Value of Financial Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the University takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Fair value of financial assets and liabilities

Level 1 input are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability

This note provides information about how the University determines fair values of various financial assets and liabilities.

Fair value of the University's financial assets and liabilities that are measured at fair value on a recurrent basis

Some of the University's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial assets/liabilities	Fair value as at		Fair value hierarchy	Valuation technique (s) and key inputs	Significant unobservable inputs	Relationship of unobservable inputs to fair value
	30/06/19 Sh	30/06/18 Sh				
Property and equipment	17,766,272,655	18,169,653,855	Level 3	Observable Inputs	N/A	N/A

APPENDIX I: PROGRESS ON FOLLOW UP OF AUDITOR RECOMMENDATIONS

The following is the summary of issues raised by the external auditor, and management Comments that were provided to the auditor. We have nominated focal persons to resolve the various issues as shown below with the associated time frame within which we expect the issues to be resolved.

1.0	Going Concern The University is operating under financial difficulties and currently it has resulted to financing its operations using costly short term borrowings which may further worsen the liquidity position. Therefore, the University is technically insolvent and if no urgent positive steps are taken to improve the financial position, it may not be able to meet its mandate in future. The financial statements have therefore been prepared on a going-concern basis on assumption that it will continue to receive financial support from Government, creditors and donors.	In addition to anticipation of financial support from the Government, bankers, creditors and donors, the University Management has implemented the following cost cutting and revenue enhancement measures to address financial challenges; 1. Restructuring of income generating activities 2. Closed campuses operating at a loss 3. Restructuring of established Campuses 4. Merged schools and departments 5. Merger and de-establishment of directorates 6. Freeze employment of staff 7. Rationalized existing staff on seasonal contracts 8. Stopped further expansion on infrastructure 9. Reviewed all operational expenses with a view of reducing costs as we maintain quality. With the above measures in place, the University will be in a position to meet its obligations as and when they fall due in the foreseeable future.	Management	Not Resolved	5 years
