<p>(1) (d) of the Constitution of Kenya, provides that every Kenyan has the right to clean and safe water in adequate quantities; NOTING THAT the residents of Tana River County have perennially suffered from acute effects of flooding and inadequate supply of water to its residents and their livestock; COGNIZANT THAT the challenge of flooding has predominantly been caused by KenGen’s release of huge amounts of water from the seven forks dams which combine with rain water from the highlands; FURTHER COGNIZANT THAT the hoarding of water at the seven forks dams and other significant upstream activities such as irrigation and small scale dams limits the amount of water that flows downstream through River Tana significantly affecting agricultural activities in irrigation schemes such as Bura, Galole and other small scale irrigation schemes in the Tana Delta as a result of inadequate water supply to the canals that channel the water to the irrigation schemes; CONCERNED THAT limited water supply to the hinterland and irrigation schemes cause severe hunger to the residents of Tana River, death of livestock and conflicts between farmers and herders, and that floods</p>
