1.0 CHAIRPERSON'S FOREWORD

It is with great honor that I present the report of the Budget and Appropriations Committee on its consideration of the Revised Estimates for the Financial Year 2024/2025 to this August House. This is in line with the Constitution of Kenya, the Public Finance Management Act, Cap 412A, and National Assembly Standing Order 243.

The revised estimates were submitted to the National Assembly on Friday, July 12, 2024, barely a month after the approval of the Estimates of Revenue and Expenditure by this House. The proposed budget seeks to rationalize the approved expenditure for FY 2024/25 to align it with the revised fiscal framework following the withdrawal of the Finance Bill, 2024, and to cater for the FY 2023/24 carryovers arising from revenue shortfalls.

The initial budget estimates relied on the expectation of increased revenue collection from the measures proposed in the Finance Bill for 2024. However, due to public concern, the Finance Bill was withdrawn, resulting in a revenue shortfall of about Kshs.344.3 billion. This necessitated the revision of the fiscal framework for FY 2024/25. The Revised Estimates were committed to the Budget and Appropriations Committee and the Departmental Committees for consideration.

To promote fiscal sustainability and solidify fiscal consolidation efforts, the revised expenditures have been realigned to reflect the actual projected revenue collection and support the most critical sectors of the economy. The estimates also provide for carryovers for expenditures that were not realized by the close of the previous fiscal year, partly due to revenue shortfalls. These carryovers relate to pension payments, county equitable shares, and NG-CDF, among others.

1.1. EXAMINATION OF THE SUPPLEMENTARY ESTIMATES I FY 2022/2023

When considering the revised estimates for FY 2024/25, the Committee held eight sittings. It received submissions from Departmental Committees in relation to the proposed expenditure changes within the MDAs under their purview. Submissions were also received from the Office of the Auditor-General and the Parliamentary Service Commission on proposed revisions to their budget, as they fall under the purview of the Budget and Appropriations Committee.

The Committee also engaged with the National Treasury to seek a common understanding of the proposed changes in view of submissions by various stakeholders. Further, in line with Articles 118(1)(b) and 221(5) of the Constitution, the Committee sought and received submissions from members of the public on key areas of focus while revising the estimates. The outcome of these deliberations informed the various recommendations contained in this report. If approved by the House, these recommendations will form the basis for the passage of the Supplementary Appropriation Bill for FY 2024/25.

1.2. FINANCIAL RECOMMENDATIONS

Based on the deliberations of the Committee, the consultative engagements, and submissions by the Departmental Committees, the Committee recommends the following:

- i. Approves a reduction of the total current expenditure for FY 2024/2025 by Kshs. **38,896,358,312** in respect of the Votes contained in the **FIRST SCHEDULE**
- ii. Approves a reduction of the total capital expenditure for FY 2024/2025 by Kshs. **107,445,697,478** in respect of the Votes contained in the **FIRST SCHEDULE**;
- iii. Approves an overall reduction in the total budget for FY 2024/2025 by Kshs. **146,342,055,790** in respect of the Votes contained in the FIRST SCHEDULE; and
- iv. Resolves that the **FIRST** and **SECOND SCHEDULE** forms the basis for the introduction of the First Supplementary Appropriation Bill, 2024.

1.4 ACKNOWLEDGMENTS

The Budget and Appropriations Committee is grateful to the Office of the Speaker and the Clerk of the National Assembly for the support extended in fulfilling our mandate and to the Departmental Committees for burning the midnight oil to process the revised budget in record time and for their insightful recommendations that eased decision making for the Committee. I also offer my sincere appreciation to all Ministries, Departments, Agencies (MDAs), and especially the National Treasury for being part of this important process.

The Committee would like to thank the members of the public who submitted their views, thereby fulfilling their constitutional obligation to contribute to building the nation. My gratitude is also extended to the Parliamentary Budget Office for its critical role in providing technical support to the Committees of the House during this process, the Directorate of Appropriations, Audit, and other Select Committees, and the Directorate of the Departmental Committees for the extensive work undertaken in the review and processing of the Revised Estimates for FY 2024/2025.

It is therefore my pleasure to table this report and recommend it to the House for adoption.

SIGNED
HON. NDINDI NYORO, CBS, M.P. CHAIRPERSON, THE BUDGET AND APPROPRIATIONS COMMITTEE
22,07,24 DATE

2.0 PREFACE

2.1. Establishment and Mandate of the Committee

- 1. Article 221 (4 and 5) of the Constitution and Section 7 of the Public Finance Management Act, 2012, provide for the establishment of a Committee of the National Assembly, whose main role is to take the lead in budgetary oversight by the National Assembly. Pursuant to this constitutional provision, Standing Order 207 establishes the Budget and Appropriations Committee with specific mandates as follows:
 - i. Investigate, inquire into, and report on all matters relating to coordination, control, and monitoring of the national budget;
 - ii. Discuss and review the budget estimates and make recommendations to the House;
 - iii. Examine the Budget Policy Statement presented to the House;
 - iv. Examine bills related to the national budget, including appropriation bills;
 - v. Evaluate tax estimates, economic and budgetary policies, and programmes with direct budget outlays; and
 - vi. Examine the Division of Revenue Bill.

2.2. Membership of the Committee

2. Pursuant to Standing Order 207(2), the Budget and Appropriations Committee, as currently constituted, comprises the following Honourable Members:

NO.	MEMBER	CONSTITUENCY	PARTY
1	Hon. Ndindi, Nyoro, CBS, M.P Chairperson	Kiharu	UDA
2	Hon. Otucho, Mary Emaase, M.P Vice Chairperson	Teso South	UDA
3	Hon. Chumel, Samwel Moroto, CBS, M.P.	Kapenguria	UDA
4	Hon. Odhiambo, Millie Grace Akoth, CBS, M.P	Suba North	ODM
5	Hon. (Dr.) Mulu, Makali, M.P.	Kitui Central	WDM - K
6	Hon. Lekuton, Joseph, M.P.	Laisamis	UDM
7	Hon. Lesuuda, Josephine Naisula, OGW, M.P.	Samburu West	KAN
8	Hon. Robi, Mathias Nyamabe, M.P.	Kuria West	UDA
9	Hon. Ochieng, David Ouma, M.P.	Ugenya	MDG
10	Hon. Muchira, Michael Mwangi, M.P.	Ol Jorok	UDA
11	Hon. Shinali, Bernard Masaka, M.P.	Ikolomani	ODM
12	Hon. Mwakuwona, Danson Mwashako, M.P.	Wundanyi	WDM ~ K
13	Hon. Atandi, Samuel Onunga, M.P.	Alego Usonga	ODM
14	Hon. Mwirigi, John Paul, M.P.	Igembe South	UDA
15	Hon. Mejjadonk, Benjamin Gathiru, M.P.	Embakasi Central	UDA .

16	Hon. Wangaya, Christopher Aseka, M.P.	Khwisero	ODM
17	Hon. Wachira, Rahab Mukami, M.P.	Nyeri (CWR)	UDA
18	Hon. (Dr.) Masara, Peter Francis, M.P.	Suna West	ODM
19	Hon. (Dr.) Ongili, Babu Owino Paul, M.P.	Embakasi East	ODM
20	Hon. Wanjiku, John Njuguna, M.P.	Kiambaa	UDA
24	Hon. Guyo, Ali Wario, M.P.	Garsen	ODM
21	Hon. (Dr.) Murumba, John Chikati, M.P.	Tongaren	FORD~K
23	Hon. Busia, Ruth Adhiambo Odinga, M.P.	Kisumu (CWR)	ODM
24	Hon. Kitilai, Ole Ntutu, M.P	Narok South	Independent
25	Hon. Sergon, Flowrence Jematiah, M.P.	Baringo (CWR)	UDA
26	Hon. Mokaya, Nyakundi Japheth, M.P.	Kitutu Chache North	UDA
27	Hon. Abdirahman Mohamed Abdi, M.P.	Lafey	Jubilee

2.3. Committee Secretariat

3. The Committee Secretariat comprises the following:

Mr. Danson Kachumbo Fiscal Analyst/ Lead Clerk

Mr. Ringine Mutwiri

Ms. Sylvia Ocharo

Fiscal Analyst/ Clerk Assistant

Senior Research Assistant/Clerk Assistant

Mr. Simon Ouko Serjeant-at-arms

Ms. Fridah Ngari Media Relations

Mr. Nimrod Ochieng Audio Officer

Mr. Jared Amara
Office Assistant

2.4 Technical Support to the Committee

4. The Committee received technical support from the following officers of the Parliamentary Budget Office:

FA (Dr.) Martin Masinde Director, Parliamentary Budget Office

Mr. Robert Nyagah **Senior Deputy Director**

Ms. Millicent Makina Fiscal Analyst I Dr. Abel Nyagwachi Fiscal Analyst I

Ms. Julie Mwithiga Fiscal Analyst I

Mr. Kioko Kiminza Fiscal Analyst III

Mr. Benard Adera Fiscal Analyst III

Ms. Loice Olesia Fiscal Analyst III

Mr. Solomon Alubala Fiscal analyst III

Ms. Priscilla Wangu Fiscal Analyst III

CPA. Cyrille Mutali Fiscal Analyst III

3.0 OVERVIEW OF REVISED ESTIMATES FOR THE FY 2024/2025

3.1. Background

- 5. The Revised Estimates for FY 2024/25 were prepared only a month after approval of the annual estimates of revenue and expenditure for the current financial year. The approved estimates were premised on additional revenue collected from the proposed measures in the Finance Bill 2024. Based on concerns raised by the public, the Finance Bill was withdrawn, resulting in a revenue shortfall of approximately Kshs 344.3 billion to finance the budget.
- 6. The revised estimates for FY 2024/25 have been necessitated by the need to realign planned expenditures to the revised fiscal framework, particularly with regard to revenue collection. The estimates also provide for carryovers for expenditures that were not realized by the close of the previous fiscal year partly due to revenue shortfalls. These carryovers relate to pension payments, county equitable share, and National Government Constituency Fund (NG-CDF), among others.
- 7. The revised estimates have been prepared against a backdrop of various socioeconomic challenges, including mounting calls for austerity, accountability, and enhanced service delivery, rising expenditure pressure for social protection programmes, ongoing reforms in education and healthcare, and the high cost of debt service. These have been compounded by revenue shortfalls and limited fiscal space to create necessary buffers.
- 8. The revised estimates propose to reduce the budget for the National Government Executive, Independent Offices, Parliament, and Judiciary by Kshs. 156.39 billion comprised of Kshs. 34.04 billion in recurrent expenditure and Kshs. 122.35 billion in development expenditure. The Consolidated Fund Services (CFS) has an additional allocation of Kshs. 23.78 billion to cater for pension arrears that were not settled by the close of the last financial year.

3.2. State of the Economy

- 9. The budget estimates for FY 2024/25 were approved with the underlying assumption that the economy would grow by 5.5 percent in 2024. The Committee noted that there are downside risks to the growth projection that include a decline in manufacturing activities due to the high cost of production, such as electricity, transportation, and imported inputs; slowdown of the service sector, especially disruption of transport and tourism activities resulting from emerging social disruptions; and underperformance of the agricultural sector due to climate change risks.
- 10. The Committee observed that the implementation of a contractionary fiscal policy compounded by the underperformance of revenue and a narrow fiscal space for borrowing implies that austerity and continued expenditure rationalization is the new norm and is likely to slow down the implementation of the budget, key BETA priorities, and overall performance of the economy. Therefore, all government agencies need to reorient the available resources to the most critical sectors of the economy. Essentially, the whole of Government approach must be geared towards creating efficiency by doing more with less.

- 11. The economy grew by 5.6 percent in 2023, compared to 4.9 percent in 2022, supported by the accelerated performance of agriculture, transportation, and accommodation. Growth in the agriculture sector accelerated from -1.5 percent to 6.5 percent as a result of improved weather conditions and government-backed production subsidies. The Committee appreciated the fact that coffee, cotton, maize, and milk farmers directly benefitted from the improvement in the agriculture sector, with their produce fetching higher average market prices in 2023 than in 2022. The prices of coffee increased by 25.7 percent, cotton seed by 6.4 percent, maize by 15.4 percent, and milk by 7.7 percent.
- 12. Overall, inflation declined from 7.9 percent in June 2023 to 4.6 percent in June 2024, which is within the CBK target. The Committee noted that the decline in food inflation was supported by an improvement in agriculture due to improve weather conditions and declining global commodity prices, which have resulted in a decline in imported inflation.
- 13. The Central Bank of Kenya has pursued a tight monetary stance by increasing interest rates to decelerate inflation. The interbank lending rate increased from 7.05 percent in March 2023 to 13.42 percent in March 2024, while the T-bill rates significantly spiked in the same period. The rising interbank rate translates to higher short-term lending rates between banks, which affects the liquidity needs and lending capacity in the banking sector.
- 14. The 91-day and 182-day T-bill rates increased from 9.76 percent to 16.68 percent and 10.06 to 16.86 percent, respectively. The Committee noted that this may pose a risk of crowding out credit to the private sector by the government, as lenders may opt to lend more to the government compared to the private sector. This may negatively impact private investment, job creation, and private-sector-led economic transformation. Consequently, the proposed additional borrowing from the domestic market implies that yields on the T-bills may remain elevated.

3.3 Fiscal Framework Underpinning the Supplementary Estimates I

- 15. The National Assembly approved a budget of Kshs. 3,992 billion for the FY 2024/25. The financing of the budget was based on existing revenue collection coupled with enhanced measures anticipated in the Finance Bill, 2024. It was expected that this would actualize fiscal consolidation efforts by reducing the fiscal deficit as a share of GDP from 5.6 percent in FY 2023/24 to 3.3 percent in FY 2024/25, and a primary balance surplus of around 2.3 percent as a share of GDP.
- 16. The approved estimates were based on the assumption that the projected ordinary revenue collection for FY 2024/25 would amount to Kshs. 2,917.2 billion. The expected ordinary revenue growth of 18.8 percent (Kshs. 461 billion) was based on an ambitious baseline for FY 2023/24. The Committee underscored the fact that the actual revenue collection for FY 2023/24 underperformed by over Kshs. 280 billion. Considering these factors, it is unlikely that the projected revenue collection for FY 2024/25 will be realized.
- 17. The revised estimates propose a downward revision of the ordinary revenue collection target for FY 2024/25 by 9.8 percent (Kshs. 285.8 billion), from Kshs. 3,342.2 billion to Kshs. 3,057.4 billion. The Kshs. 285.8 billion reduction in revenue including Kshs. 104 billion in

- excise taxes, Kshs. 64 billion in domestic VAT, 49.5 billion in income tax, Kshs. 24 billion in VAT on imported goods and services, and a Kshs. 27 billion in import duty collection.
- 18. The proposed reduction in expected revenue collection exceeds the reduction in expenditures by Kshs. 164 billion. Consequently, the fiscal deficit as a share of GDP for FY 2024/25 is expected to expand from the approved 3.3 percent (Kshs. 597 billion) to 4.2 percent (Kshs. 761 billion). It is projected that the expanded fiscal deficit will be financed by increasing domestic borrowing Kshs. 141.4 billion, from Kshs. 263.2 billion to Kshs. 404.6 billion. Furthermore, the primary balance surplus as a share of GDP is expected to decrease from 2.3 percent to 1.4 percent.

3.4 Key Proposed Changes in Supplementary Estimates I for FY 2024/25

- 19. To maintain the fiscal consolidation path and avoid carryovers that will be occasioned by having an unfunded budget, the National Treasury has proposed an overall reduction in the total budget for FY 2024/25 by 3.1 percent (Kshs. 121.8 billion) from Kshs. 3,992 billion to Kshs. 3,870.2 billion.
- 20. The drivers of these changes include a reduction in Kshs. 122.4 billion and Kshs 34.1 billion in development and recurrent expenditures, respectively, and an increase of Kshs. 30.8 billion and Kshs.23.7 billion for county equitable share and pensions carryovers for the FY 2023/24. The Committee noted that the reduction in development expenditure has been consistent over the last three years. Indeed, development expenditure as a share of GDP reduced from an annual average of 6.3 percent between 2010 and 2020 to 3.2 percent in FY 2024/25 revised estimates.
- 21. The Kshs.122.4 billion expected reduction in development expenditure is targeted at projects that are financed through the exchequer. Projects financed by development partner loans and grants amounted to over Kshs.240 billion. The Committee noted that this is a departure from previous years, where fiscal consolidation mainly amounted to the postponement of donor-financed development projects.
- 22. The Committee observed that the modest reduction in recurrent estimates has ensured that critical recurrent items, such as the allocation for free day secondary education, free primary education, and Junior Secondary School (JSS), have not been rationalized. The Kshs. 23.8 billion increase in Consolidated Fund Service expenditures is due to carryover in commuted pensions for civil servants and the military, amounting to Kshs. 15.6 billion, ordinary pensions for civil servants, and the military amounting to Kshs. 5.7 billion, and the employer contribution to the public service superannuation scheme amounting to Kshs. 2.6 billion.
- 23. The proposed reduction in development expenditure will affect critical programmes and projects including Kshs 14.6 billion for constituency-based electrification projects, Kshs. 14.1 billion from various road projects; Kshs. 4.5 billion from the settlement of the landless, processing of title deeds, and digitizing land registries; Kshs. 8.3 billion from the NG-CDF, Kshs. 3.2 billion from the construction, equipping, and operationalization of Technical Training Institute (TTIs) across the country, and Kshs.4.9 billion from JSS and secondary school infrastructure improvements, among others.

24. The proposed reduction in recurrent expenditure comprises Kshs. 10 billion from the Teachers Service Commission for CBA implementation; Kshs 5 billion from basic education for examination waiver for primary and secondary school national examinations; Kshs 1.7 billion from GoK Sponsorship to Students in Private Universities; Kshs. 3.6 billion from the State House and the Office of the First Lady; Kshs 1.89 billion from the Office of the Deputy President and the Office of the Spouse to the DP, and Kshs. 2.7 billion from the budget of the Parliamentary Service.

4.0 SUBMISSIONS BY THE OFFICE OF THE AUDITOR GENERAL (OAG) AND THE PARLIAMENTARY SERVICE COMMISSION (PSC)

25. The Budget and Appropriations Committee oversights the Office of the Auditor General and the Parliamentary Service Commission. The Committee invited the two entities to make submissions on the extent to which the proposed changes in the revised estimates may affect the delivery of their constitutional mandate.

4.1 Submissions by the Office of the Auditor General

- 26. The Office of the Auditor General submitted that the FY 2024/2025 Supplementary Budget process is unprecedented, as it comes just a month after the approval of the Appropriation Act, 2024. The OAG applauded the Government and Parliament for taking the urgent and bold step of reviewing the budget estimates after it became apparent that the projected revenues and the basis on which the expenditures estimates were approved, may not be realized.
- 27. The Office of the Auditor General (OAG) had an approved budget allocation of Kshs. 8.66 billion comprising of Kshs. 8.2, and Kshs.455 million in Recurrent and Development expenditure, respectively. The revised estimates suggest a reduction in the allocation of OAG by Kshs. 862.8 million which comprises Kshs.462.8 million and Kshs.400 million for recurrent and development expenditure, respectively.
- 28. The OAG noted that the reduction in allocation for domestic travel will have a bearing on the ability to undertake comprehensive audits given that this is used for facilitation of audit-related travels and is a direct cost to the audit process. The Office is faced with a choice between reducing coverage in terms of the number of entities to audit or the extent of audit verifications on projects undertaken. This undermines the role of oversight, as the resources allocated to public entities may not produce the expected results. The Office will also not be able to support auditors to attend the Parliamentary and County Assemblies oversight committee sittings, which may weaken the interrogation of audit reports during the committee hearing sessions.
- 29. The OAG noted the negative effect of the proposed budget cuts for FY 2024/2025 and carryover from FY 2023/2024 on the implementation of the planned activities. Given that the proposed cuts originated from the Executive without the input of the Office of the Auditor-General is an indicator that the Office does not have full autonomy to operate independently, and it is a confirmation that the Office is under the control of the National

Treasury and other authorities due to a lack of financial autonomy, contrary to the provisions of Article 249(2) of the Constitution.

4.2 Submissions by the Parliamentary Service Commission

- 30. The Parliamentary Service Commission submitted that the Commission had requested an amount of KES 65.8 Billion as per the costed workplans. However, the appropriated amount for FY 2034/25 was Kshs. 44.59 billion, representing an underfunding to the tune of 20.8 billion. The Commission submitted that the revised estimates propose a reduction of Kshs 3.7 billion which will severely affect service delivery.
- 31. The Commission noted that the directives in the general circular by the National Treasury on budget revision may not be suitable for all MDAs, as their mandates differ significantly. For Parliament, a reduction in domestic travel will undermine its core oversight function, as Committee work relies heavily on travel for public participation, inquiries, and monitoring and evaluation. It is also important to note that all pending bills will take priority in this financial year, significantly reducing the resources available for operations.
- 32. The Commission noted with concern that the proposed 100% reduction in membership fees, dues, and subscriptions to professional and trade bodies will adversely affect Kenya's international obligations as it would be unable to fulfill commitments to international organizations. These bodies include the Commonwealth Parliamentary Association (CPA), the East African Legislative Assembly (EALA), the Inter-Parliamentary Union (IPU), the Pan-African Parliament (PAP), and the Forum of Parliaments for the International Conference on the Great Lakes Region (FP-ICGLR and other programmes for promoting the ideals of parliamentary democracy. Maintaining these memberships is important for upholding Kenya's reputation and responsibilities on the international stage.

5.0 KEY OBSERVATIONS BY THE DEPARTMENTAL COMMITTEES

33. The Departmental Committees presented critical observations and recommendations contained in Annex I of this report. The Fourth Medium Term Plan key priorities are clustered under five key sectors, namely: Finance and Production; Infrastructure; Social; Environment and Natural Resources; and Governance and Public Administration. Key observations by various Departmental Committees have been mapped to the relevant MTP IV sector.

5.1 Finance and Production Sector

34. The Committee on Finance and National Planning noted that the Kenya National Bureau of Statistics (KNBS), through the National Treasury and Economic Planning, requested an advance of EUR 14 million (approximately Kshs. 2.31 billion) from the World Bank for the East African Regional Statistics Programme for Results. Despite the World Bank informing the National Treasury of the necessity to incorporate this advance into the FY 2024/25 budget, the amount has not been reflected in the revised estimates. Consequently, the project, which had a budget allocation of Kshs. 300 million from the exchequer, has been revised to zero.

- 35. The Committee on Agriculture and Livestock noted that the resources that had been provided for the funding of prioritized value chains under the BETA agenda, such as the Cotton Revitalization Programme, Coconut Industry Revitalization Project, Food Security, and Crop Diversification, have been revised to zero. In addition, the resources meant to revive collapsed export crops, including pyrethrum, cashew nuts, and coconut, have also been revised to zero. This will have a bearing on the national food security and overall implementation of the bottom-up economic transformation agenda.
- 36. The Committee on Trade, Industry, and Cooperatives observed that there is a public outcry from farmers who have not received payment for the milk supplied to New KCC. The agency received an allocation of Kshs. 500 million in FY 2022/23, Kshs. 1.5 billion in FY 2023/24, and it is proposed they receive Kshs. 1.5 billion in FY 2024/25 for the mop-up of excess milk. The Committee further observed that the new Kenya Planters Cooperative Union (KPCU) only received Kshs. 500 million from the exchequer out of the budget allocation of Kshs. 4 billion in FY 2023/24 and this hindered the agency from meeting the Kshs. 80 per kg payment to most of the coffee farmers.

5.2 Infrastructure Sector

- 37. The Committee on Lands observed that the State Department for Land surpassed the AIA target of Kshs. 1.249 billion by collecting approximately Kshs. 2.2 billion in FY 2023/2024. This milestone was achieved due to the full rollout and implementation of the cashless system and the onboarding of all land services on the E-Citizen Platform. The State Department remitted back to the National Treasury Excess Appropriations in Aid (AIA) of Kshs. 1.25 billion out of this collection.
- 38. The Committee on Transport and Infrastructure noted that the allocation of Kshs 178 million for salaries for Bandari Maritime Academy staff was reduced to zero. This will negatively affect the operations of the Academy. The committee expressed concerns about the reduction from the State Department for Roads of Kshs.14.105 billion from the development budget. This will negatively impact project implementation by, among others, the accumulation of pending bills and delayed project implementation, leading to an escalation of project costs.
- 39. The State Department for Energy has experienced significant budget cuts affecting development expenditures to the tune of Kshs. 18.53 billion which is a reduction of 31%. The projects affected include the Last Mile Connectivity for Constituencies and other interventions, the Rural Electrification Schemes project and the street lighting project. The Committee on Energy noted that this will severely impact the sector and the economy.
- 40. The Committee on Communication, Information and Innovation noted that despite the reduction of the allocation to Constituency Innovation Hubs (CIHs) from Ksh.377 million to zero, the construction of the hubs shall continue through the Kenya Digital Economy Acceleration Project, a new World Bank funded project worth Kshs.3.1 billion in this financial year. The programme aims to establish 290 Digital Village Smart Hubs and Studios this financial year, and in the long term, have one hub per ward across the country.

- 41. The revised estimates have affected most development projects in the water sector, including the Galana Kulalu Project, National Expanded Irrigation Project, Siyoi Muruny Dam Water Supply Project, Community-based Irrigation Projects, Household Irrigation Water Harvesting Project, and other water harvesting projects in all Water Works Agencies. The Committee on Blue Economy, Water, and Irrigation noted that this would greatly impact the provision of clean and safe water for household consumption and irrigation purposes.
- 42. The Committee further observed that Mwache Dam is facing implementation challenges due to the lack of adequate funds for the Resettlement Action Plan (RAP). The State Department for Irrigation has been allocated Kshs. 400 million for RAP in the FY 2024/25 against a requirement of Kshs. 1 billion. The Project Affected Persons, who are yet to be compensated for land surrendered to the government for the project, have obstructed the contractor from accessing the construction site and hence stopped construction. This may lead to the contractor demanding penalties on the government for breach of contract estimated at Kshs. 8.2 million per day.
- 43. The Committee on Housing, Urban Planning and Public Works indicated that in the approved FY 2024/25 Budget, the State Department for Housing & Urban Development projected to collect Kshs. 63.2 billion from the Housing Levy, however, based on the monthly collection from April, May, and June the projection for FY 24/25 has been revised to Kshs. 72.0 billion. Further, the Committee noted that as of 30th June 2024, the Affordable Housing Fund Account had a balance of Kshs. 38.5 billion. These funds are not reflected in the revised estimates hence the need for enhancement of Appropriation in Aid (AiA) attributable to Housing levy collection from Kshs. 63.2 billion to Kshs. 110.5 billion.
- 44. The Committee observed that the State Department for Housing & Urban Development submitted a list of projects at various stages of implementation, however, the Committee resolved to approve ongoing projects with a total budgetary requirement of Kshs. 86.2 billion and recommends that going forward all other earmarked projects shall be subjected to requirements of section 15 (2) and (3) of the Affordable Housing Act, 2024 which requires the Board to submit the Annual Investment Program to the Cabinet Secretary for onward submission to Parliament.

5.3 Governance and Public Administration Sector

- 45. The revised estimates propose scrapping off some expenditures, including confidential expenditures for the Office of the Deputy President, allocation to the Office of the First Lady, and the Office of the Spouse to the Deputy President. However, the Committee on Administration and Internal Security observed that the staff under the two offices had signed contracts, and the discontinuation of their services may attract litigation or additional costs.
- 46. The Committee on Administration and Internal Security submitted the proposed 100% reduction in the development budget of the Government Printer, which was allocated Kshs. 700 million for equipment modernization would severely impact operations of the Office. Addressing the needs of the Government Printer is crucial to prevent halting essential services. Further, the Committee noted that for e-citizen services, over 17,349 government

services have been onboarded. The committee observed that to sustain this platform, continuous upgrades, public sensitization, and regular monitoring are needed. The committee noted that the proposed cuts would impact e-citizen services, reducing the uptake of services and revenue collection.

- 47. The Committee on Administration and Internal Security observed that the Office of the Deputy President undertook functions related to the Ministry of Agriculture and National Authority for the Campaign Against Alcohol and Drug Abuse (NACADA). There was need for these activities to be funded from their respective MDAs. The allocation of duplicated activities included Kshs. 20 million towards Alcohol, Drugs, and Substance Abuse and Kshs. 183 million towards Coffee Sector Reforms Implementation Committee.
- 48. The Committee further noted that the cut in the recurrent budget of The National Police Service would negatively affect the planned recruitment of 5,000 police officers. Available funds of Kshs. 3.2 billion could only recruit 2,862, instead of recruiting 5,000, as planned.
- 49. The Committee on Defense and Foreign Relations noted that the 100% budget cut of the Busia Cross-Border Market project under the State Department for East African Community will cripple the progress made in actualizing the "Trademark East Africa (TMEA) Grant." When actualized, the Cross-Border Market is critical in expanding the Kenyan Market and promoting Regional Integration.
- 50. The Committee further noted a reduction in the allocation for the Purchase of a Chancery in London from Kshs. 900 million to zero is not justifiable, given that a suitable property has already been identified, procurement has been finalized, and the successful bidder is notified. Reversing transactions at this stage will have serious legal, reputational, and financial implications. The State Department has already committed Kshs.2.0 billion and is seeking a balance of Kshs.900 million to complete the purchase.
- 51. The Defense and Foreign Relations Committee established that, at the start of FY 2024/25, the Ministry of Defense had carryover from FY 2023/24 of Kshs 22.4 billion arising from exchequer underfinancing. The pending bills were treated as a first charge in the FY 2024/25 allocation, in line with the National Treasury guideline on the settlement of pending bills. This has resulted in a reduction in the Ministry's disposable budget.

5.4 Social Sector

52. The education sector is one of the most affected sectors by the proposed revised estimates. This includes an entire reduction for capital projects across the education sector, including infrastructure improvement for Basic institutions, TVET, and public universities; Kshs 5.1 billion for National examinations, affecting administration logistics for 2.3 million registered learners that are supposed to sit for exams this year; Kshs 10 billion reduction for the TSC, for implementation of the CBA for teachers. The Committee on Education expressed concerns that if these reductions are approved, the education sector will be crippled by compromising the quality and quality of education and jeopardizing the reforms that are ongoing in the sector. Further, the proposal to shift the school feeding program from the education sector

- could disrupt its effectiveness in supporting retention, completion rates, and school attendance.
- 53. The Committee on social protection observed that critical social protection programmes have been affected by proposed austerity measure including the reduction of the Youth Enterprise Fund and Women Enterprise Fund which play an important role in business financing and incubation; the National Youth Service (NYS) that impacts life skills for the young people and Youth Empowerment Centers that were envisaged to create employment and enhance employability for the young people. Further, the sector will not be able to undertake key activities including facilitating World Children's Day, emergency response, education support, family tracing, and re-integration for children under foster care compromising the promotion of children's rights.
- 54. The Committee on Health indicated that the proposed reductions will impact key interventions under the universal health coverage pillar of the Bottom-up Economic Transformation agenda. The allocation for recruitment of medical interns is Kshs. 3.7 billion while the requirement is Kshs. 5.2 billion resulting in a shortfall of Kshs. 1.5 billion. Notably, the return-to-work formula agreed upon between the Government and the Kenya Medical Practitioners, Pharmacists, and Dentists Union (KMPDU), where the National Government is to facilitate the settlement of the basic salary arrears accrued by the County Governments through a conditional grant amounting to Kshs. 3.5 billion over five years, starting from 1st July 2024 is on course.
- 55. The Committee on Sports and Culture submitted that there is a significant reduction in allocation to capital projects. The development expenditure across the departments has been reduced by 100%, delaying the completion of projects and increasing costs. This impacts the Cinema Theatre, Kenya Film School, and Kenya Academy of Sports which have the potential to generate AIA if well-funded. Further, the Anti-Doping Agency of Kenya has only Kshs. 20 million from the exchequer and an estimated Kshs. 10 million in AIA, implying that it will struggle to comply with the World Anti-Doping Code 2021, compromising Kenya's participation in athletics competitions.

5.5 Environment and Natural Resources Sector

- 56. The key projects affected by the proposed revised estimates for the State Department for Environment and Climate Change include the Weather Radar Surveillance Network project, the Acquisition of CAT 3 Airport Weather Observing System, the purchase of digital surveillance instruments, the Construction of Centers of Excellence and Innovation on Environment and Kenya Meteorological Department among others. The Committee on Environment submitted that current funding levels from the exchequer and other sources are inadequate to contain climate change and associated extreme weather events (floods, droughts, rising temperatures, increased frequency of wildfires, and climate variability) which threaten sustainable development and negatively impact the sector.
- 57. The proposed reductions for the State Department for Forestry include the Tree Growing Campaign and Rangeland Restoration Project, Green Zones Development Support Project,

Construction of Tree Seed Processing Units, and Natural Forestry Programme The Committee environment submitted that the budget cuts will impede the country's objective of the 15 billion trees growing campaign, collection and distribution of tree seeds, and development of technology and protocols, especially for endangered and hard-to-propagate tree species.

- 58. The departmental committee on environment submitted that the Mining Act recognizes the Online Mining Cadaster (OMC) as the only avenue for making applications, processing, and managing mineral rights. Currently, there is a cadaster system in place and a respective management contract. Lack of budget provision will be counterproductive as the State Department will not be able to fund the hosting, maintenance, and redevelopment of OMC, adversely affecting mineral rights licensing and management.
- 59. The Committee on Tourism and Wildlife submitted that the Tourism Promotion Fund (TPF) exceeded its AIA collection target for FY 2023/24 by Kshs. 390.3 million, achieving Kshs. 5.1 billion. TPF proposes increasing its AIA target from Kshs. 2.7 billion to Kshs. 5.7 billion. Similarly, the Tourism Fund (TF) aims to increase its target from Kshs. 5.08 billion to Kshs. 6.5 billion while Kenyatta International Convention Centre (KICC) proposes raising its AIA target from Kshs. 1.15 billion to Kshs. 1.28 billion. This will enable the sector to minimize overreliance on the exchequer over the medium term.

6.0 SUBMISSIONS FROM PUBLIC MEMORANDA

The Committee received the following submissions from members of the public:

60. The members of the public proposed reduction of recurrent expenditures across the board and the resources be channeled to the employment of interns engaged by the Public Service Commission (PSC), providing relevant education, training, and employment for the youth and victim protection board, and victim compensation fund under the state law office.

To fund the recruitment of interns engaged with the Public Service Commission (PSC) among other proposals, several public submissions presented proposals to reallocate funds across MDAs from the following budget lines: training expenses, hospitality supplies and services, other operating expenses, routine maintenance, and other assets, and the purchase of office furniture and general equipment. The submissions further proposed a 50 percent reduction of certain budget lines, including printing, advertising, and information supplies and services; specialized materials and supplies; domestic travel and subsistence and other transportation costs; rehabilitation and renovation of plants, machinery, and equipment; and office and general supplies and services.

61. Committee Consideration

i. As per the existing internship policy, hiring public service interns is geared towards equipping youth transitioning into the job market with the necessary skills. In view of budget rationalization in FY 2024/25 and taking into account a freeze on recruitment by the Public Service Commission, the Committee takes note of these views and recommends that, as the economic situation improves, the Public Service Commission should review the policy to consider recruitment on a sequential basis, taking into account all the previous cohorts that have been trained.

- **ii.** The Committee further recommends that the Public Service Commission partner with the State Department for Labour to identify job opportunities available based on the skillset of the trained interns.
- iii. With regard to the proposed budgetary reductions, the committee notes that these budget lines have already undergone significant cuts, and the funds have been reallocated to other critical programmes.

62. Proposal to rationalize Parliament's budget from Kshs. 44 billion to Kshs. 20 billion.

1. To create fiscal space for funding emerging needs, members of the public proposed the reduction of the Budget for Parliamentary Service from Kshs.44 billion to Kshs.20 billion.

63. Committee Consideration

- i. The Committee notes that the cost of running Parliament is currently more than the proposed Kshs. 20 billion;
- ii. Parliament's Budget has been rationalized by Kshs. 3.7 billion; and
- iii. The Committee has taken note of these views, going forward, the allocation shall be reviewed on need basis.

64. Abolishing NG-CDF and reallocation of the funds to the Education and Health sectors

In view of the current shortfalls in the budget for the education and health sectors, members of the public proposed abolishment of the National Government Constituency Development Fund (NG-CDF).

65. Committee Consideration

- i. The Committee acknowledges this submission. However, it's the Committee's considered opinion that the NG_CDF remains relevant as a service delivery tool for the National Government, which has resulted into significant strides in terms of infrastructural development, especially in the education sector; and
- ii. The fund employs the principle of subsidiarity to accommodate citizens needs at the grassroot level. Service delivery through the constituency model has proven to be effective over time with enhanced equity and accountability. Notably, the projects are identified through public participation and their implementation is subject to audits by the Office of the Auditor General.

66. Review the Terms of Employment of Commissioners of the Salaries and Remuneration Commission (SRC)

2. The public raised concerns regarding the current employment terms of the SRC commissioners. They proposed a review of the terms of employment for Salaries and Remuneration Commissioners with the aim of saving operational costs. The proposal is to hire Commissioners on a part-time rather than full-time basis.

67. Committee Consideration

i. To actualize this proposal, the Committee noted that there was need to amend the SRC Act since the terms and conditions of the Commissioners was anchored in law.

68. Confirm UHC Health Care Workers under Permanent and Pensionable Terms

The public proposed confirming UHC healthcare workers to permanent and pensionable terms. The proposal also seeks to factor in gratuity for healthcare workers, as well as harmonization of their remuneration.

69. Committee Consideration

i. The Committee notes the plight of the UHC healthcare workers and to this end, sufficient resources have been earmarked in the revised budget for FY 2024/25 to ensure that the workers are absorbed on a Permanent and Pensionable basis.

70. Proposed Merger of Ministries, Departments and Agencies (MDAs)

The public proposed the merger of the State Department for TVET with the State Department for Higher Education, the State Department for Parliamentary Affairs with the State Department for Cabinet Affairs, the State Department for Roads with the State Department for Transport, the State Department for Public Works with the State Department for Housing, the State Department for Trade with the State Department for Industry, the State Department for Investment Promotion with the State Department for MSMEs Development, and the State Department for Medical Services with the State Department for Public Health.

71. Committee Consideration

i. The Committee has taken note of this proposal and will put forward a proposal for consideration by the Executive, noting that the reorganization of the executive is a prerogative of the Presidency.

72. Abolishing the State Department for Devolution

Members of the public put forward a proposal for the abolishment of the State Department of Devolution. They affirmed that if the same is retained, then its capacity building and civic education budget should be reduced and money allocated to counties. Furthermore, there is a proposed reduction in the allocation to the State Department for Economic Planning, which is considered to be significantly high.

73. Committee Consideration

- i. The Committee has taken note of the proposal to abolish the State Department for Devolution and will put forward a proposal for consideration by the Executive, noting that the reorganization of the Executive is a prerogative of the Presidency.
- ii. With regard to the State Department for Economic Planning, certain budget items have been rationalized in the Supplementary Budget.

74. Ring-fencing Allocation for Junior Secondary School (JSS)

The members of the public requested that the National Assembly ringfences the allocation for JSS as proposed by the Teachers Service Commission.

75. Committee Consideration

i. The Committee notes the concern by the public and is committed to enhancing the current allocation for hiring JSS intern teachers in FY 2024/25.

76. Proposal to eliminate the Office of the Prime Cabinet Secretary

The Committee has taken note of this proposal and will put forward a proposal for consideration by the Executive, noting that the reorganization of the executive is a prerogative of the Presidency.

77. Proposal to enhance the allocation for Medical Interns

The public raised concerns regarding the terms of employment of medical interns. This has led to labour unrest resulting in disruption of service delivery in the medical sector.

78. Committee Consideration

i. The Committee noted that the FY 2024/25 budget allocation for medical interns is Kshs. 3.7 billion and the government is committed to further enhancing the allocation to cater for medical interns over the medium term.

79. Unconstitutionality of the Supplementary Appropriations Bill No.1 of 2024

There were submissions referring to the unconstitutionality of Supplementary Appropriations Bill No. 1 of 2024 on account of non-adherence to the principle of openness and accountability under Article 201, transparency in procurement under Article 227, and the right to access information under Article 35 of the Constitution.

80. Committee Consideration

i. While the Committee has noted that the submission is on promoting principles of openness and accountability, the document referred to in the submission as the Supplementary Appropriation Bill is yet to be published.

81. Audit Opinion Underpinning the Accounts for FY 2022/23

The public proposed that entities with qualified or disclaimer audit opinions in FY 2022/23 should be denied budgetary allocations for the purchase of goods and services, travel, and allowances. This will promote accountability.

82. Committee Consideration

i. The Committee has noted the concerns represented in the submission. However, the stoppage of funds in totality to a spending agency may have unintended consequences on service delivery. Thus, the Committee considers the audit process as a better channel for ensuring accountability;

ii. As part of the audit process, Standing Orders 205 and 206 provide for the mandate of the Public Accounts Committee and Public Investments Committees to examine reports and accounts for appropriated funds. In this regard, the Committee shall allow the Audit Committees to conclude examining expenditures by government agencies, and thereafter, the recommendations contained in the reports shall form the basis of any decision in the future.

83. Proposal for state organs to publish their monthly procurement expenditures

The public submitted that as a way of enshrining transparency and accountability in public procurement, there is a need to publish monthly procurement expenditures.

84. Committee Consideration

- i. The Committee notes that the public procurement process typically takes up to over a month to complete the tendering process. Advertisement of a tender takes up to 14 days in which interested bidders submit their bids within the specified timelines, and the evaluation of bids takes up to one month, once the evaluation is complete and the approval of the accounting officer has been sought, the bidders have up to 14 days to appeal.
- ii. From the foregoing, it is impractical to have monthly reporting. However, the implementation of e-procurement may address the transparency and accountability concerns raised by the public. Therefore, the Committee proposes fast-tracking of implementation of the e-procurement system.

85. Submissions from Kalawa Ward in Makueni County

Stakeholders from Makueni proposed the following interventions: provision of seeds, subsidized fertilizer, farm machinery, irrigation, and cereals board. It was further submitted that they required cash transfers for PWDs, reinstatement of school feeding program in primary schools, and enhancement of bursaries. Furthermore, they requested that bursary committees have two members of the Citizen Voice and Action group, a social accountability group based in Kalawa Ward, sanitary towels, healthcare services, and rescue and rehabilitation centers due to rampant GBV cases.

86. Committee Consideration

- i. The Committee noted that the interventions requested are already being implemented by the Ministry of Agriculture, Ministry of Education, Ministry of Health, and the Ministry of Gender;
- ii. The appointment of committee members is guided by Section 43(1) of the National Government Constituency Development Fund Act, 2015;
- iii. Pursuant to the National Government Constituency Development Fund Regulations, 2016, the mandate to vet bursaries lies with the constituency committee in accordance with guidelines issued by the board; and
- iv. The constituency may invite any public officer or any expert who, in the opinion of the constituency committee, has expert knowledge in matters relating to the functions of a constituency committee to attend any meeting of the committee in accordance with Regulation No. 7(8) of the National Government Constituency Development Fund Regulations, 2016.

87. Reduction of Defence Budgets by Kshs. 18 billion.

The members of the public submitted that to fund other emerging priority needs, it was proposed that the budget for the Ministry of Defence be reduced by Kshs.18 billion.

88. Committee Consideration

- i. The Committee notes that the budget for the Ministry of Defence has already been rationalized taking into account the needs of the security sector; and
- ii. Owing to key security considerations, the Defence budget requires careful consideration before considering any further cuts.

89. Upscaling the Budget for the Judiciary

The public proposed reinstatement of budgetary allocations for the Judiciary and Judicial Service Commission, as approved in the FY 2024/25 Appropriation Act. Furthermore, the submission proposes to ring-fence budgets for the Judiciary and Judicial Service Commission from future budget cuts. It also proposes the enactment of a minimum percentage of the budget allocation to the Judiciary as an arm of Government to protect its independence. It proposes full operationalization of the Judiciary Fund Act.

90. Committee Consideration

i. The Committee takes note of the views in this submission. However, budget rationalization has been occasioned by the need to meet the anticipated revenue shortfalls and this reduction will be equitably borne by all arms of the government.

91. Ring-fencing Allocation for Water Projects in Water Scarce Regions

The members of the public requested that the National Assembly ringfence the allocation for water projects in Arid and Semi-Aid (ASAL) counties that have less than 50% of their household population without access to basic drinking water.

92. Committee Consideration

i. The Committee notes the concern by the public and is committed to enhancing the allocation for water projects in ASAL areas of the Country over the medium term.

93. Address the duplication of functions between National Government MDAs and County Governments

Members of the public put forward a proposal for addressing the duplication of functions between national and county governments. Specifically, the public noted that the Regional Development Agencies (RDAs) and the SAGAs under the Water sector are implementing functions that are constitutionally assigned to county governments. They proposed the immediate restructuring of all SAGAs under the Water Sector and the RDA to align their mandates with Fourth Schedule of the Constitution which provides for the distribution of functions between the National and County Governments.

94. Committee Consideration

i. The Committee has taken note of the proposal to address the duplication of functions between the national and county governments and will put forward a proposal for consideration by the Executive.

95. Rationalization of affirmative action funds within the Education Sector

The members of the public requested the National Assembly to merge the separate funds within the education sector that are focused on providing education bursaries at multiple levels of schooling. These funds include the Higher Education Loans Board, University Funding Board, Capitation for Primary and Secondary Schools, National Government Constituency Development Fund (NG-CDF), National Government Affirmative Action Fund (NGAAF), Children's Support Services under the State Department for Social Protection and Senior Citizen Affairs and County Allocations to bursaries.

96. Committee Consideration

- i. The Committee notes the concern of the public. However, the proposal requires amendment of various legal instruments which is not tenable under the current budget making timelines.
- 97. Members of the public submitted that the National Assembly should provide Kenyans with an additional seven (7) days to review the Supplementary Estimates.
- 98. The National Assembly and the Treasury should ensure the timely provision of all relevant information including a detailed breakdown (with the titles and items) of the unamended expenditure from the Appropriation Act 2024.

99. Committee Consideration

- i. The committee notes the concerns raised in this submission. However, due to the urgency of approving a revised budget since the financial year has already begun, it is not possible to provide an additional seven days to review the budget. The public is however free to continuously engage members of Parliament on budgetary matters including monitoring the implementation of various projects.
- ii. With regard to the provision of information, the itemized budget books are available on the websites of the National Treasury and Parliament. Additionally, an analysis of the revised budget has been undertaken by the Parliamentary Budget Office and is available on Parliament's website.
- 100. Repeal retirement benefits (Deputy President and Designated State Officers) Act; and reduce the budgetary allocation to zero. Funds are to be allocated to improving crucial sectors including agriculture, tourism, wildlife, and forestry conservation.

101. Committee Consideration

The committee acknowledges this submission. However, a revision of the budgetary allocation to these offices would first require a review of the Retirement Benefits (Deputy President and Designated State Officers) Act.

102. Proposals to cap expenditure across various votes and expenditure heads.

The members of the public proposed reductions on various expenditures including State House and State lodges; Kenya Defence Forces by 50%, salaries and allowances under the Executive Office of the President, Office of the Deputy President, Office of the Prime Cabinet Secretary, Cabinet Secretaries, Members of the National Assembly and Senate; and any dignitaries by 50%. These funds should be allocated to creating employment and social safety net programmes for Kenyans; supporting athletes and creating employment for Kenyans; as well as to ensure that all Kenyans can access adequate housing and reasonable standards of sanitation.

103. Committee Consideration

The committee acknowledges the submission. However, an extensive reduction of the budget is likely to have unintended consequences on service delivery and may also breach contractual obligations. The committee will continue to ensure that resources allocated are adequate for the functioning of the government while also monitoring implementation to ensure value for money.

104. Abolishment of some expenditure heads.

The members of the public submitted proposals to reduce to zero, the budgets of the following heads: Presidential Communication Service, Policy Analysis and Research Strategic Policy Advisory Services; Strategic Initiatives and Development of Arid/Semi-Arid regions; Oceans and Blue Economy Office; Kenya/Southern Sudan Liaison Office; National Counter Terrorism Centre; Government Strategic Priorities and Interventions; International Development Partnerships Coordination should not be approved. The money provided for thereunder should be allocated to paying teachers, doctors, and social workers; building hospitals, supporting farmers, building schools and roads; and supporting micro, small, and medium enterprises in the country.

105. Committee Consideration

The committee acknowledges the submission. However, an extensive reduction of the budget is likely to have unintended consequences on service delivery. The committee will continue to ensure that resources allocated are adequate for the functioning of the government while also monitoring implementation to ensure value for money.

106. Information on the National Treasury's decisions regarding the processing of FY 2024/25 Supplementary 1 Budget Estimates.

The public requested information on the decisions made by the National Treasury regarding the consideration of FY 2024/25 Supplementary Estimates I on the following: Information on the significance of budgetary cuts on development expenditure compared to recurrent expenditure, the basis for prioritization of NG-CDF arrears over development expenditure carryovers, the decision not to include all the carryovers on pensions and gratuity, timelines for merging of state corporations, decision on the hiring of JSS interns, status of the new higher education funding model and wrong calculations of revenue to GDP ratio and fiscal deficit to GDP ratio. The submission further sought to understand why the disbursement for the equitable share to counties is not sufficient resulting to carryovers.

107. Committee Consideration

- i. The Supplementary Estimates 1 was occasioned by the unprecedented withdrawal of the Finance Bill, 2024 which had sought to collect Kshs. 344 billion. Given that the Appropriations Bill had already been enacted, extensive cuts had to be made to align approved expenditures with expected revenue collections.
- ii. To achieve this, the Supplementary Estimates prioritized preservation of certain critical development expenditures that included the allocations to roads, and fertilizer subsidies among others, and the inclusion of expenditure arrears in certain areas. The priority expenditure carryovers include pension arrears, allocation to counties, and an allocation for development expenditures which includes NG-CDF.
- iii. The implementation of the new higher education funding model is currently being addressed by the Ministry of Education.

108. Proposal to ring-fence allocations to key agricultural programs and to fully devolve agriculture

Members of the public proposed a reassessment of the budgetary cuts to ring-fence allocations to critical agricultural programs. Further, it was proposed that agriculture should be fully devolved.

109. Committee consideration

- i. The Committee has noted the concerns raised by the public, however, budget rationalization has been effected across the board to address anticipated revenue shortfalls.
- ii. The Fourth Schedule of the Constitution delineates functions between the two levels of government. In this regard, the functions that the National Government undertakes are linked with cross-cutting policy interventions that cannot be assigned to specific counties.

110. Unrealistic revenue targets by the National Treasury

Members of the public proposed that the National Treasury should set realistic targets in view of previous unmet revenue targets.

111. Committee consideration

The Committee takes note of the proposal to ensure more accurate forecasting of revenue. However, the Committee notes that revenue estimates are forecasts and in some cases they may not be met due to variations in economic performance.

112. Rationalization of budgetary allocations for Health and Education sectors

The public noted that the budgetary cuts in the health and education sectors will affect key projects negatively impacting service delivery in these sectors.

113. Committee consideration

i. The Committee has noted the concerns raised by the public, however, budget rationalization has been effected across board to address anticipated revenue shortfalls. The Committee is however committed to enhancing the allocation to critical sectors once the economic situation improves.

114. Duplication of functions and reinstatement of allocations for the State Department for Higher Education and Research and the EduAfya program

Members of the public submitted a proposal to reinstate the allocation for the State Department for Higher Education and Research to its FY 2023/24 allocation, a proposed allocation of Kshs. 10 billion for the reinstatement of the EduAfya program, identifying areas with duplication in the budget, and reallocating the funds to other critical priorities.

115. Committee consideration

The Committee has noted the concerns raised by the public and will consider them over the medium term.

116. Allocate resources for the School Meals Program (SMP).

Ensure the School Meals Program receives funding to support the ongoing initiatives to mitigate negative impacts on school attendance, nutrition, and economic stability.

117. Committee Consideration

i. The committee notes the need for the provision of school meals to mitigate absenteeism and increase attendance and enrolment. To this end, sufficient resources have been earmarked for FY 2024/25 to the State Department for Basic education to reverse potential consequences.

7.0 KEY OBSERVATIONS AND RECOMMENDATIONS BY THE COMMITTEE

118. Based on the deliberations of the Committee, the consultative engagements including public participation, and submissions by the Departmental Committees, the Committee makes the following observations and recommendations:

7.1 Key Observations

i. The Committee noted with concern that Appropriations in Aid comprise a substantial component of financing for the national government amounting to approximately Kshs 400 billion in the proposed estimates for FY 2024/25. However, agencies with the mandate to collect the AIA have continued to underestimate their AIA targets during budget approval only to seek an upward review during supplementary estimates. This

- continues to reduce accountability and prudence in the use of AIA which is a form of revenue collected from taxpayers. The underestimation of AIA during budget approval equally increases the budget deficit in the fiscal framework which occasions additional borrowing.
- ii. The Committee observed that despite the fiscal constraints, a section of government agencies namely parastatals and other SOEs have not been participating fully in austerity measures. This has allowed these agencies to continue incurring non-priority expenditures while the rest of the government including counties face expenditure cuts occasioned by the withdrawal of the finance bill, 2024.
- iii. The Committee noted that limited information is provided in the budget estimates of the Semi-Autonomous Government Agencies (SAGAs). This has hampered proper scrutiny, fiscal accountability, transparency, and parliamentary oversight of the budgets of Semi-Autonomous Government Agencies (SAGAs).
- iv. The Committee noted that development expenditure as a share of GDP reduced from an annual average of 6.3 percent between 2010 and 2020 to 3.2 percent in FY 2024/25 revised estimates. This translates to 28 percent of the total budget contrary to the provisions of section 15(2)(a) of the PFM Act CAP 412A that development expenditure shall not be less than 30 percent of the total proposed expenditure.

7.2. Non-Financial Recommendations

- 119. In view of the foregoing, the Committee recommends as follows:
- i. To address the systemic issues around the collection, usage, and accountability of AIA the Committee recommends that:
 - a. By 31st December 2024, the National Treasury provides a comprehensive report on the sources and expenditure of all AIA for the National Government by Ministry, Department, and Agency (MDA). The report should also contain practical proposals for the review of legal frameworks governing the collection and usage of various AIA to provide an overarching legal framework for governing this critical source of revenue.
 - b. By 31st December 2024, the National Treasury should submit to the National Assembly legal instruments and mechanisms for transmitting excess AIA collection to the exchequer for reallocation to needy areas or for reducing the fiscal deficit. Further, the committee recommends policy measures for containment of the proliferation of non-tax levies, fees, and charges including the requirement for the approval by the National Assembly in variation of those levies, fees, and charges.
 - c. By 31st December 2024, the National Treasury to submit to the National Assembly recommendations on the review of legal frameworks or laws governing SOEs to require the remission of excess funds to the exchequer for application to needy areas or reduction of public debt.
- ii. To enhance transparency and accountability in the next budget cycle, SAGAs should bring an itemized budget to the respective Departmental Committees. This itemized budget should

- detail all expenditure categories and projected costs, allowing for direct oversight and detailed analysis of specific budget items by the National Assembly.
- iii. During the preparation of the 2025 BPS, in accordance with the fiscal responsibility principle, as set out in *section 15(2)(a)* of the PFM Act CAP 412A, the National Treasury shall ensure that at least 30% of the national budget is allocated to development expenditure.

7.3. Financial Recommendations

- 120. The Committee further recommends that the House:
 - i. Approves a reduction of the total current expenditure for FY 2024/2025 by Kshs. 38,896,358,312 in respect of the Votes contained in the FIRST SCHEDULE
 - ii. Approves a reduction of the total capital expenditure for FY 2024/2025 by Kshs. 107,445,697,478 in respect of the Votes contained in the FIRST SCHEDULE;
 - iii. Approves an overall reduction in the total budget for FY 2024/2025 by Kshs. 146,342,055,790 in respect of the Votes contained in the FIRST SCHEDULE; and
 - iv. Resolves that the **FIRST** and **SECOND SCHEDULE** forms the basis for the introduction of the First Supplementary Appropriation Bill, 2024.

SIGNED
