(Ministry of Environment & Natural Resources)

THAT, aware that cities, towns and urban areas in Kenya are increasingly getting overpopulated leading to overstretching of services and amenities; concerned that improper management of waste has become a major cause of pollution of neighborhoods, water sources and other natural resources leading to rise of environment-related diseases which cause many deaths; further concerned that in most urban areas, waste is dumped in an uncontrolled manner posing a great challenge to the wellbeing of urban dwellers, particularly those living near dumpsites; acknowledging that the problem continues to rise despite the efforts made to mitigate the problem through various statutory bodies, private entities and communities; the Senate calls upon the National Government to take immediate steps to develop effective waste management regulations and put in place proper disposal facilities, including for harmful waste and that this be done in consultation with all key stakeholders.
