**Appointment of additional Senators to the Mediation Committee on the Cooperatives Bill (National Assembly Bill No. 7 of 2024)**

“**Honourable Members**, you will recall that on Tuesday, 9<sup>th</sup> June, 2026, I notified the House of the appointment of five (5) Senators to the Mediation Committee on the Cooperatives Bill (National Assembly Bill No. 7 of 2024).

**5. PETITIONS**

The Speaker reported the following Petition –

**Establishment of a National Police Firearms Digital Detection and Tracking System**

“**Honorable Members**, Article 119 of the Constitution accords any person the right to petition Parliament to consider any matter within its authority. Further, Standing Order 225(2)(b) requires the Speaker to report to the House any Petition other than those presented by a member.

In this regard, **Honourable Members**, I wish to report that my office has received a Petition from *Mr. Emmanuel Kelly Ojow*, Identification No. 26xxxx07 calling for the establishment of a National Police firearms digital detection and tracking system.

**Honourable Members**, while the Petitioner acknowledges the provisions of Article 243 and 244 regarding establishment and functions of the National Police Service in the Constitution of Kenya, the Petitioner is concerned that several security incidents, including attack on a police posts and stations in some parts of the country where officers were reportedly ambushed and firearms forcefully taken has exposed vulnerabilities in current firearm storage, monitoring and rapid response systems.

**Honourable Members**, the Petitioner contends that the theft or unauthorized removal of police firearms places police officers at heightened operational risk, endangers civilians and undermines public confidence in national security institutions.

The Petitioner observes that firearm issuance and armory management systems in many police stations remain largely manual and lack immediate electronic detection mechanisms capable of flagging unauthorized removal or tampering in real time. Further, the Petitioner notes that there is presently no mandatory nationwide encrypted automated alert system that instantly notifies command structures upon irregular firearm movement, thereby delaying rapid response and recovery efforts.

**Honourable Members**, the Petitioner therefore pray that the National Assembly intervenes to amend the National Police Service Act and related legislation to establish a secure national digital firearms detection and tracking system within the National Police Service, including biometric-controlled smart armories, encrypted real-time tracking and alert mechanisms, safeguards for operational confidentiality, dedicated budgetary support and statutory protections to ensure officers are not unfairly held liable for systemic technological failures.

**Honourable Members**, having established that the matters raised in the Petition fall within the authority of this House and that they are not pending before any court of law or constitutional body, I hereby commit the Petition to the Public Petitions Committee for consideration pursuant to the Standing Orders.

The Committee is required to consider the Petition and report its findings to the House and to the Petitioner in accordance with Standing Order 227(2). I thank you!"
