37.	THAT , aware that avocado farming and processing activities have expanded rapidly in Kenya; noting that, <i>Kenya National Bureau of Statistics (KNBS) Economic Survey, 2024</i> approximated the national production at 848,100 tonnes in 2024, up from 633,000 tonnes in 2023, valued at Kenya Shillings 29.5 billion; appreciating that according to the survey, Murang'a County contributed about 200,991 tonnes of the total production, making it the leading avocado-producing county in the country; concerned that avocado processing generates large volumes of organic waste including peels, seeds, pulp, and pomace, which, when improperly managed, cause environmental degradation,	19/02/2026	The Hon. 	water contamination, and increased greenhouse gas emissions; further concerned that residents of Murang'a County and other major avocado-growing regions have raised serious concerns over the improper disposal of avocado waste which undermines the right to a clean and healthy environment as envisaged under Article 42 of the Constitution thus posing significant public health and environmental risks; appreciating that studies by the <i>Food and Agriculture Organization (FAO, 2023)</i> and global best practices from Mexico and Chile demonstrate that avocado waste can be converted into bio-fertilizer, biogas, animal feed, and other value-added products; recognising that by embracing valorisation of avocado waste, Kenya stands a chance to reduce environmental pollution and public health risks, create employment opportunities, and support a circular economy in the avocado sector; appreciating the role of the National Government in the formulation of policies and frameworks to guide and support effective waste management by county governments; Now therefore, this House resolves that the National Government formulates an avocado waste management and valorisation policy to provide for— (a) sustainable avocado waste management and valorisation,

	including research, training, and technology transfer to farmers and provision of processors on modern waste management and valorisation practices, with the aim of reducing pollution, improving public health, and creating jobs in the avocado-producing regions; (b) promotion of investment and innovation by providing subsidies, incentives, and technical support for waste-to-value initiatives such as bio-digesters, bio-refineries, and other circular economy solutions; and (c) collaboration mechanisms for the national government, county governments and private sector partners in sustainable avocado waste management and valorisation.

	further aware that these commodities are largely produced for the export market, positioning Kenya as a global leader in cut-flower exports, one of Africa's largest producers and exporters of avocados and macadamia nuts, and a major supplier of tea and coffee; noting that the commencement of duty-free access to the Chinese market for these products effective May 2026 presents a historic opportunity to widely expand export earnings, create thousands of rural jobs, promote value addition, and strengthen the country's position in global agricultural trade; concerned that the high cost of electricity in Kenya, as evidenced by commercial and industrial rates significantly exceeding those of regional competitors such as Ethiopia and Tanzania, continues to erode the competitiveness of export-oriented agriculture by inflating the costs of critical operations such as irrigation, cold-chain storage and logistics, processing, drying, grading, packaging, and other value-addition activities essential for meeting stringent international quality, food safety, and phytosanitary standards; cognisant that affordable and reliable power supply is a critical input for smallholder farmers, farmer cooperatives, aggregators, and agro-processors engaged in these export crops; further

	cognisant that the lack of targeted electricity subsidies has led to reduced profitability, discouraged investment in modern technologies such as solar-assisted irrigation and energy-efficient cold rooms, and increased vulnerability to global price volatility and climate shocks; acknowledging that whereas, the National Energy Policy 2025–2034 and the Policy Framework for Sustainable Financing and Subsidy Management in Agriculture provide a broad foundation for targeted interventions, no specific mechanism exist on subsidised electricity tariffs exclusively for export-oriented agricultural production, processing, and related infrastructure; now therefore, this House resolves that the Cabinet Secretary for Energy & Petroleum formulates a national policy on power subsidies for export-oriented agricultural production that provides for tiered electricity tariff subsidies including off-peak and time-of-use rates, exclusively for registered producers, cooperatives, processors and exporters of coffee, tea, avocados, cut flowers, macadamia nuts, cashew nuts and other designated export crops.

	(i) THAT, the boundaries of Turbo Forest be varied by excluding 1,241.50 hectares in the <i>Manzini</i> area from the original boundaries of the Forest for the settlement of the landless squatters in the Manzini Forest Block; (ii) THAT, the boundaries of Mount Elgon Forest be varied by excluding 4,647 hectares in <i>Chepyuk</i> area from the original boundaries of the Forest for the settlement of landless squatters in Chepyuk Phase II and Phase III; and (iii) THAT, the boundaries of Kakamega Forest be varied by excluding 94.99 hectares at <i>Shiru</i> and 36 hectares at <i>Shaviringa</i> from the original boundaries of the Forest as compensation of beneficiaries who surrendered land to the government to establish public institutions and government offices.						
145.	THAT, aware that, Kenya's education sector has faced escalating infrastructure pressures culminating in overstretched facilities, particularly in boarding schools; concerned that, despite the introduction of an online learner placement portal in December 2025 by the Ministry of Education to widen access and expedite transfers	24/06/2026	The Hon. NO.	SUBJECT	NOTICE OF MOTION	PROPOSER	SECONDER	DIVISION	DEBATED AND CONCLUDED	REMARKS
	among schools, there continues to be inequitable outcomes, disproportionately disadvantaging rural learners who suffer digital exclusion; acknowledging that, parental preference for Category 1 (C-1) and Category 2 (C-2) schools owing to their improved infrastructure, including boarding amenities, causes over-enrolment in C-1 and C-2 schools; recalling that, during the inaugural admission of Grade 10 learners into Senior Schools in January 2026 under the Competency Based Curriculum, some C-1 and C-2 schools invariably admitted learners at double or more of their approved capacity; noting that, this tendency leaves most Category 3 (C-3) and Category 4 (C-4) schools severely under-enrolled, some below their viable enrolment capacity; concerned that the current capitation model based on the number of learners per school is not only misaligned with actual school facilities but also encourages over-enrollment by some schools in pursuit of higher capitation funding; observing that, the resultant overcrowding in C-1 and C-2 schools has eroded the recommended teacher-to-student ratio of 1:40, fueled teacher burnout; diminished instructional quality; affected individual learner attention; overstretched facilities; and compromised learner-safety in cases of emergencies; now

	therefore, this House resolves that, the Ministry of Education, in collaboration with other relevant government agencies and stakeholders— (i) recalibrates the education capitation formula to reflect actual infrastructural capacity and ensure that schools receive proportional and equitable capitation so as to incentivise enrolment diversification and achieve equitable distribution of learners across the school categories; (ii) develops and enforces guidelines for capping the number of streams per category of schools at a maximum of ten for C-1 schools, eight for C-2, five for C-3, and three for C-4 schools, with each stream not exceeding forty students; and (iii) implements a targeted and accelerated infrastructure upgrade programme in C-3 and C-4 schools, including classrooms, laboratories, ICT hubs, boarding sanitation and amenities so as to achieve infrastructure standardisation across all categories of schools, safeguard the quality of education, and systematically eliminate overcrowding in C-1 and C-2 schools.
